

Part 6: Sharing With Others

Presentations

Via the Share button, or the View > Show Presentation menu item, or by customizing your toolbar and adding the Presentation button, you can begin a slideshow of your project.

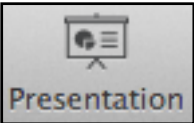

Use the arrow keys to zip around your slideshow. Press Escape to end the slideshow.

Scaling

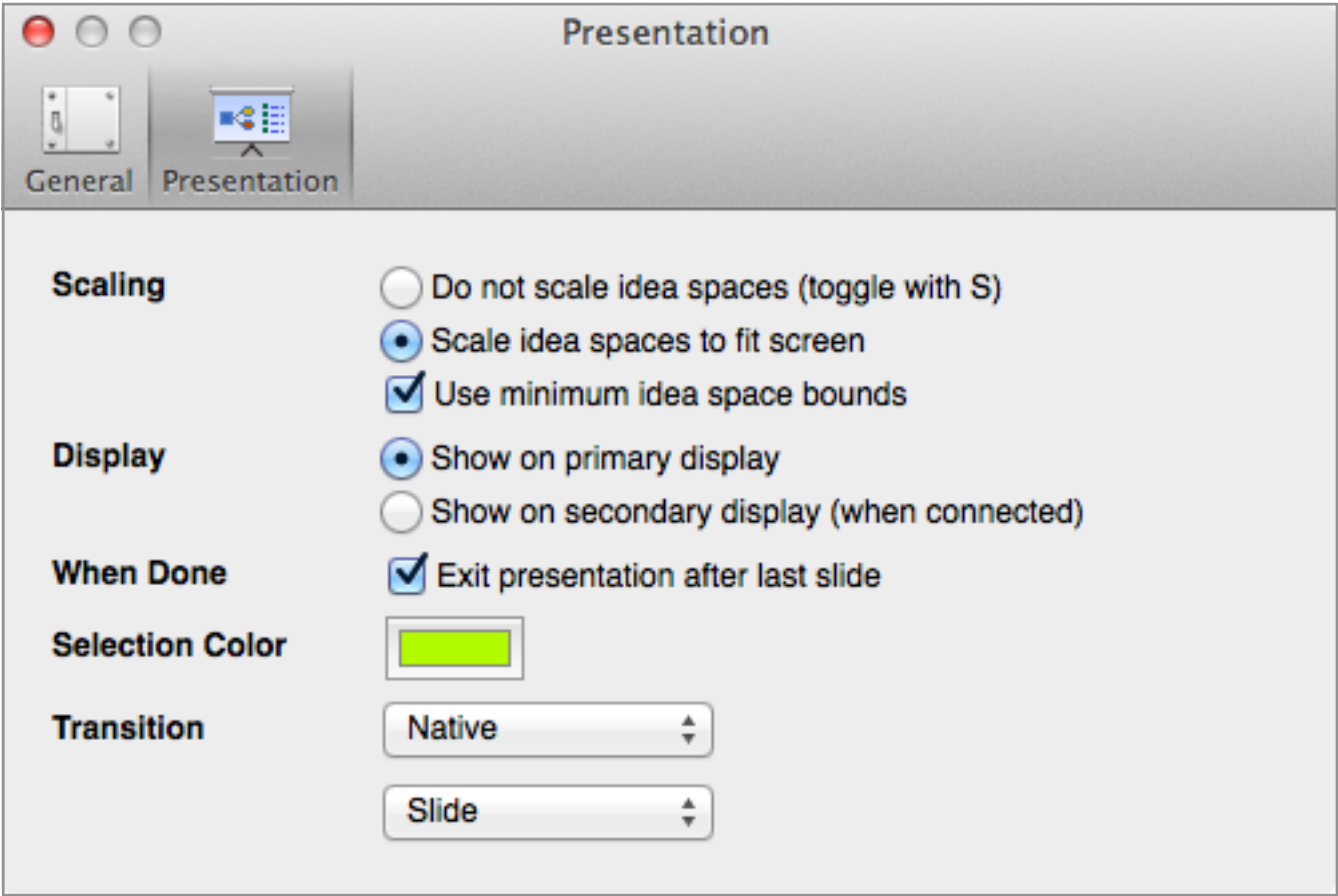

Toggle scaling by pressing the S key. When unscaled the idea space is displayed actual size, simply click and drag on background of the idea space to move around.

Selecting and Opening

You can click on a figure to highlight it, or double-click on it to open it or playback a media figure. You can also press 0 through 5 to set a rating for the selected figure.

Customize your toolbar (via right-click) and add a Presentation button if you wish.

Presentation Preferences

In Curio's Preferences you can set many of the defaults used while in presentation mode.
