1 Important Set Up Notes

In order to use *Pi* fully please read the following topics, as applicable, to ensure that your set up is fully functional.

PerfectIT Windows XP Theme

Windows Help file for Windows 7 users

Using Pi as Administrator in Windows 7 version

1.1 PerfectIT Windows XP Theme

In order to give a fresh visual resolution. *Pi* was developed using a Microsoft Windows XP customised Theme.

If your screens do not display correctly you will need to activate this theme. To do this you should double click the file included with your installation. This is found on the installation CD or in the directory in which you downloaded *Pi*

The file is called : **PerfectIT_theme**

First locate the file.

Then double click on it. The following screen will appear.

Click the **Apply** button . A Windows message will appear briefly and the theme is now active. You should click the **OK** button to exit.

If you want to reset or change your desktop theme at any time you should right-click on your desktop screen and select **properties** to select a Theme or configure your theme using the display properties utility. Click the **Apply** button. A Windows message will appear briefly and the theme is now active. You should click the **OK** button to exit

1.2 Windows Help file for Windows 7 users

Pi was developed using context sensitive help, (saves you from having to search every time you want help - it means we have put the exact help you need, related to the activity you are currently performing, at your fingertips immediately, saving you time and ensuring you get the specific help you need when you need it. (Of course our help file does have fully comprehensive searching facilities should you ever need them).

Starting with the release of Windows Vista and continuing in Windows 7, Microsoft do not ship the Windows Help program (winhlp32.hlp) as a feature of Windows. Unfortunately Microsoft will not allow third-party vendors, like ourselves, to include this file with our applications and it is needed if you wish to use our essential context sensitive help file.

In order to use our winhlp32-bit help file (**highly recommended**), you must download and install the program (WinHlp32.exe) from the **Microsoft Download Centre**.

This is quite simple to do and in most cases you will be prompted to do this automatically by the Windows 7 operating system the first time you click the help key when using *Pi*.

To download the required file copy and paste the link below into your internet browser.

<http://www.microsoft.com/downloads/details.aspx?FamilyID=258aa5ec-e3d9-4228-8844-008e02b32a2c&displaylang=en>

and then follow the instructions given.

* note : There are two versions of the winhlp32.exe available for Windows 7 . Microsoft do supply instructions to determine the which version of windows 7 you are running ((**64 bit** or 32 bit(**X86**)), so please follow them to ensure you download the correct version of the winhlp32.exe file for your computer.

You only need to download and install the winhlp32.exe file ONCE.

1.3 Using Pi as Administrator in Windows 7 version

In order to use *Pi* fully in Microsoft Windows 7 you must run it as Administrator. There are several ways to do this and they are all fairly simple to set up.

OPTION ONE

Using a keyboard shortcut

This will allow *Pi* to run temporarily as an administrator once until you close it.

1. Press and hold **Ctrl+Shift** while opening the *Perfectit* program.

2. If prompted by User Account Control (UAC), then click on **Yes** to apply permission to allow the program to run with full permission as an Administrator.

NOTE: *If you are doing this is while logged in as **standard user** instead of an administrator, then you will need to provide the administrator's password before the program will run as administrator*

OPTION TWO

Using the Program Context Menu

This will allow **Pi** to run temporarily as an administrator **once** until you close it.

1. Right click on the **Pi** shortcut and click on **Run as administrator**. (See screenshot below)

2. If prompted by User Account Control (UAC), then click on **Yes** to apply permission to allow the program to run with full permission as an administrator.

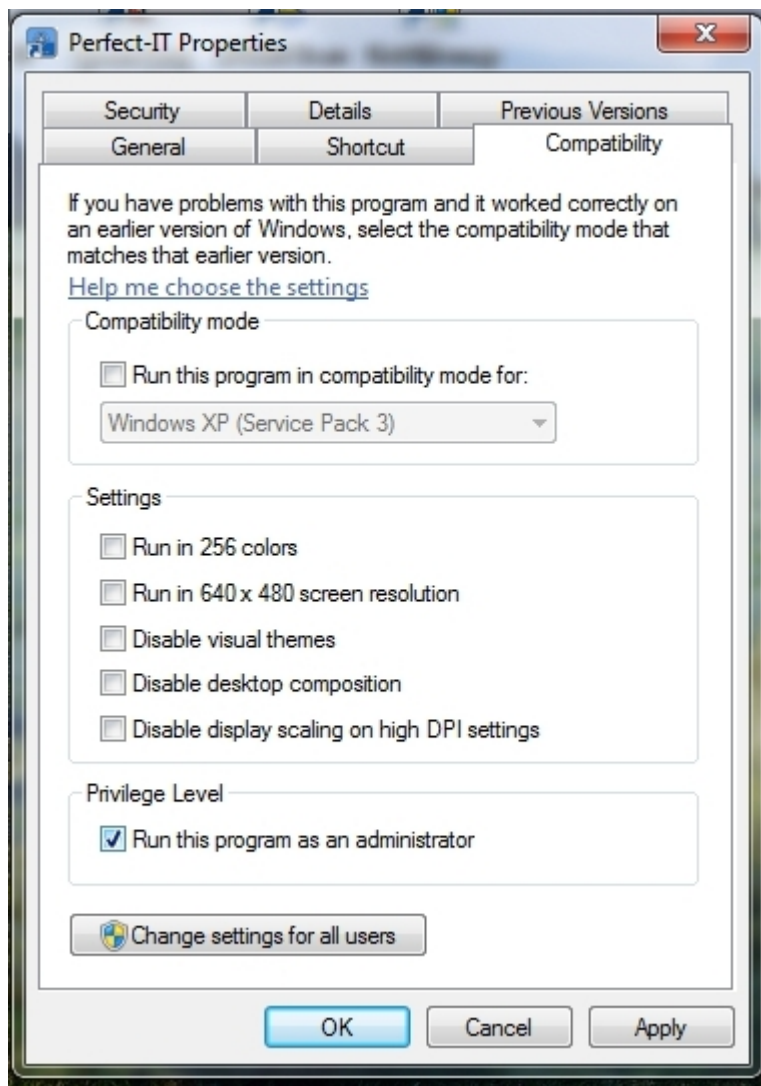

NOTE: If you are doing this is while logged in as **standard user** instead of an administrator, then you will need to provide the administrator's password before the program will run as administrator

OPTION THREE (recommended)*Using Compatibility Mode*

This will allow **Pi** to run as an administrator **every time** you open it.

1. Right click on the **Pi** shortcut, then click on **Properties**, and on the **Compatibility** tab. (See screenshots below)

NOTE: If you are doing this while logged on as a **standard user** instead of an administrator, then you will need to also click on the **Change settings for all users** button and type in the administrator's password.

2. To Always Run this Program as an Administrator -

A) Check the **Run this program as an administrator** box, and click on **OK**. (See screenshots above)

3. To Not Always Run this Program as an Administrator -

A) Uncheck the **Run this program as an administrator** box, and click on **OK**. (See screenshots below step 1)

4. Open the program.

5. If prompted by User Account Control (UAC), then click on **Yes** to apply permission to allow the program to run with full permission as an administrator.

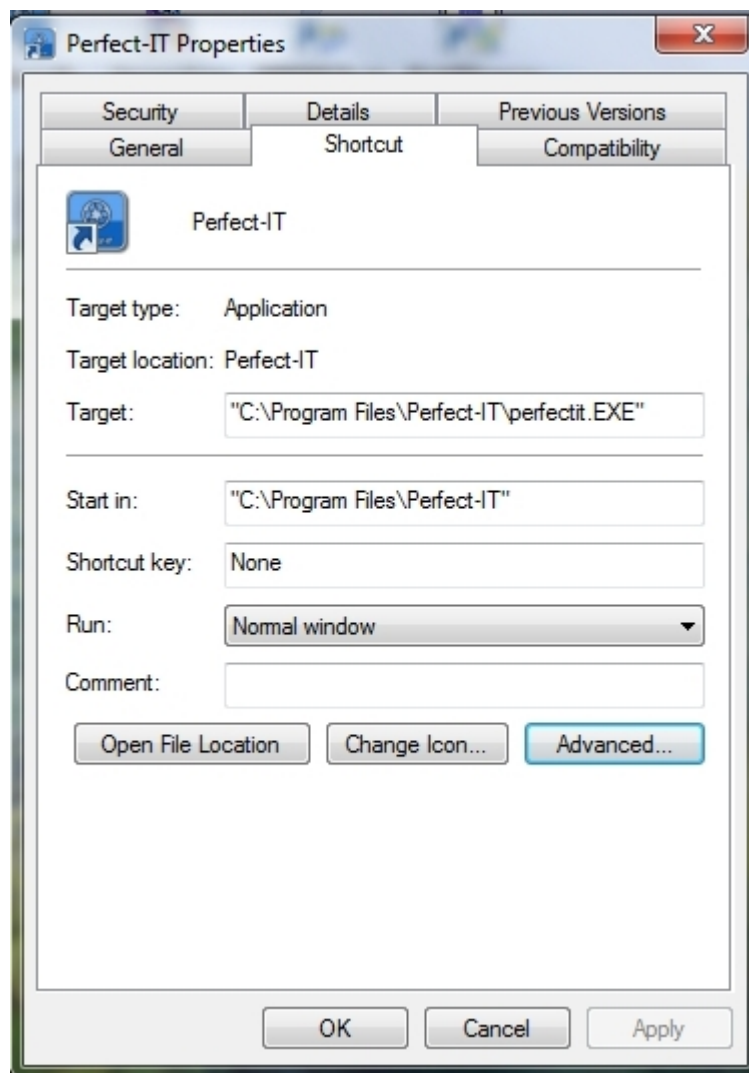

NOTE: *If you are doing this is while logged in as **standard user** instead of an administrator, then you will need to provide the administrator's password before the program will run as administrator*

OPTION Four

Using Advanced Properties

This will allow **Pi** to run as an administrator **every time** you open it.

1. Right click on the **Pi** shortcut then click on **Properties**.
2. Click on the **Pi** shortcut, Click on the **Advanced** button. (See screenshots below)

3. To Always Run this Program as an Administrator -

A) Check the **Run as administrator** box, and click on **OK**. (See screenshot below)

NOTE: The option to select this from the **General** tab (step 2) is not available in a **standard user account**.

4. To Not Always Run this Program as an Administrator -

A) Uncheck the **Run as administrator** box, and click on **OK**. (See screenshot above)

NOTE: The option to select this from the **General** tab (step 2) is not available in a **standard user** account.

5. Click on **OK**. (See screenshots below step 2)

6. Open the program.

7. If prompted by User Account Control (UAC), then click on **Yes** to apply permission to allow the program to run with full permission as an Administrator.

NOTE: If you are doing this is while logged in as **standard user** instead of an administrator, then you will need to provide the administrator's password before the program will run as administrator.

1.4 Screen Resolution

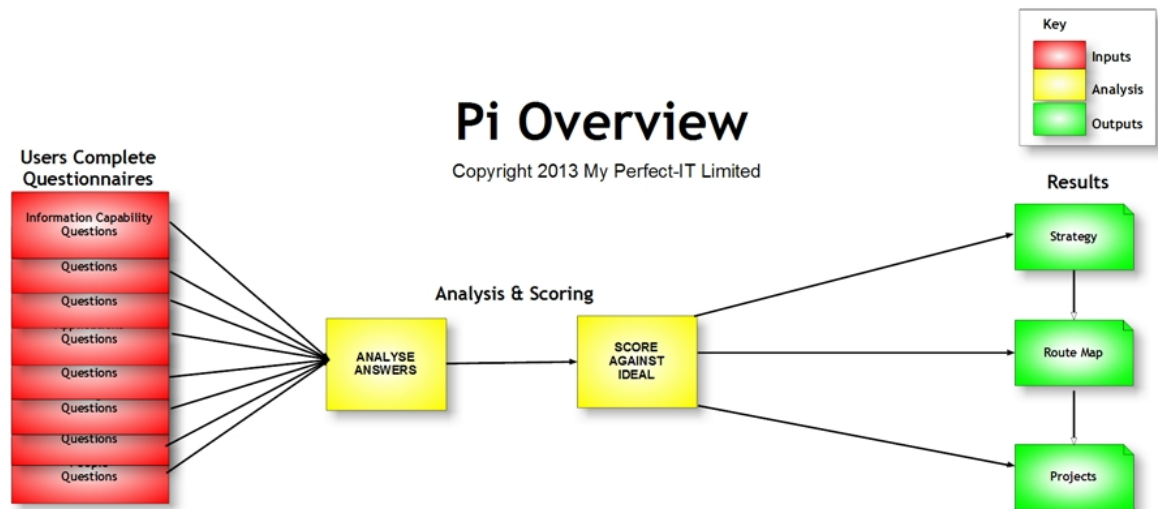

In order to ensure that the screen resolution is the same as that used when programming the application and consequently easy to read, a check is made when you start the application. If it is not the same, the screen resolution will be dynamically set to 1024 x 768. Your resolution will be reset to your preferred resolution on exit from the application.

Part

2 Contents

2.1 Overview

Pi is an application that asks you simple questions about the various areas of your organisation and based on your answers details how you can improve the effectiveness of your information and overall business performance.

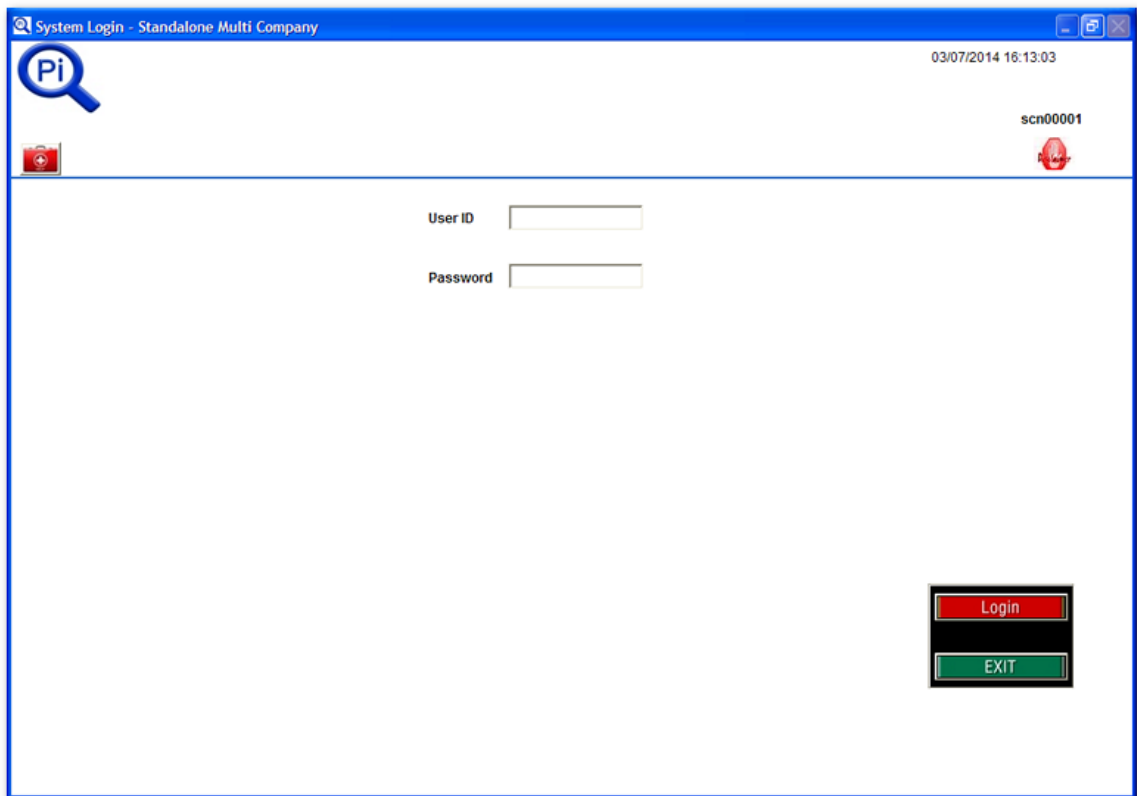

Continuous improvement in just 7 steps:

1. Answer ALL the questionnaires
2. Run the Analysis
3. Run the Reports
4. Implement the Recommendations
- 5 .Review the Results
6. Update the Questionnaires
7. Repeat steps 2 - 6

Important Note

In order to obtain accurate advice, it is essential that you complete ALL of the questionnaires within the system before running any of the output options.

2.2 Logging In

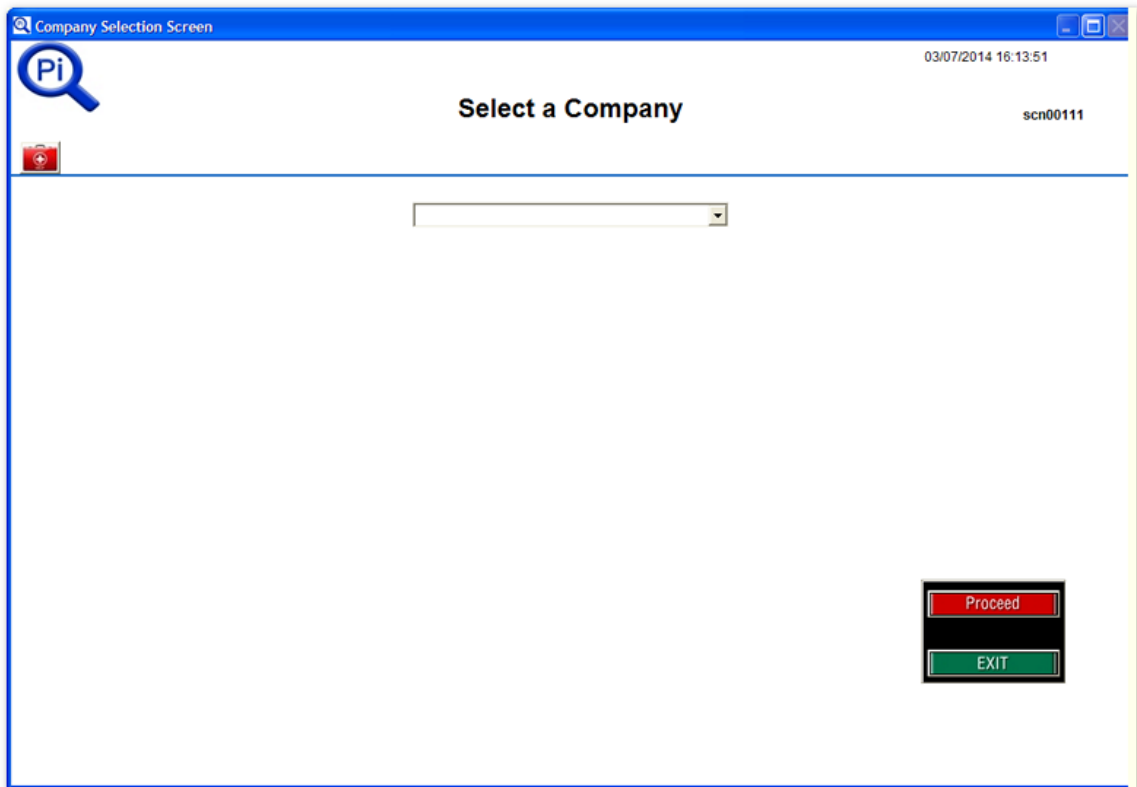

The screenshot shows a Windows-style application window titled "System Login - Standalone Multi Company". The window has a blue title bar with standard minimize, maximize, and close buttons. In the top-left corner, there is a logo consisting of a blue circle with a white "Pi" and a magnifying glass icon. In the top-right corner, the date and time "03/07/2014 16:13:03" are displayed. Below the title bar, there is a small red icon with a white cross. In the center of the window, there are two input fields: "User ID" and "Password", each with a corresponding text label to its left. In the bottom-right corner, there are two buttons: a red "Login" button and a green "EXIT" button, both with black text. The window also displays "scn00001" in the top-right area, next to a small red icon.

Here you must enter your USER ID and Password. Input is case sensitive.

Once the correct information has been entered you will be taken either to the Control Centre if using the Single Company version of the application or to the Select Company screen if using the Multi Company version of the application.

Note: The options available and the detail of output available are dependent on the version of the software licensed/purchased.

2.3 Select Company (Subscriber)

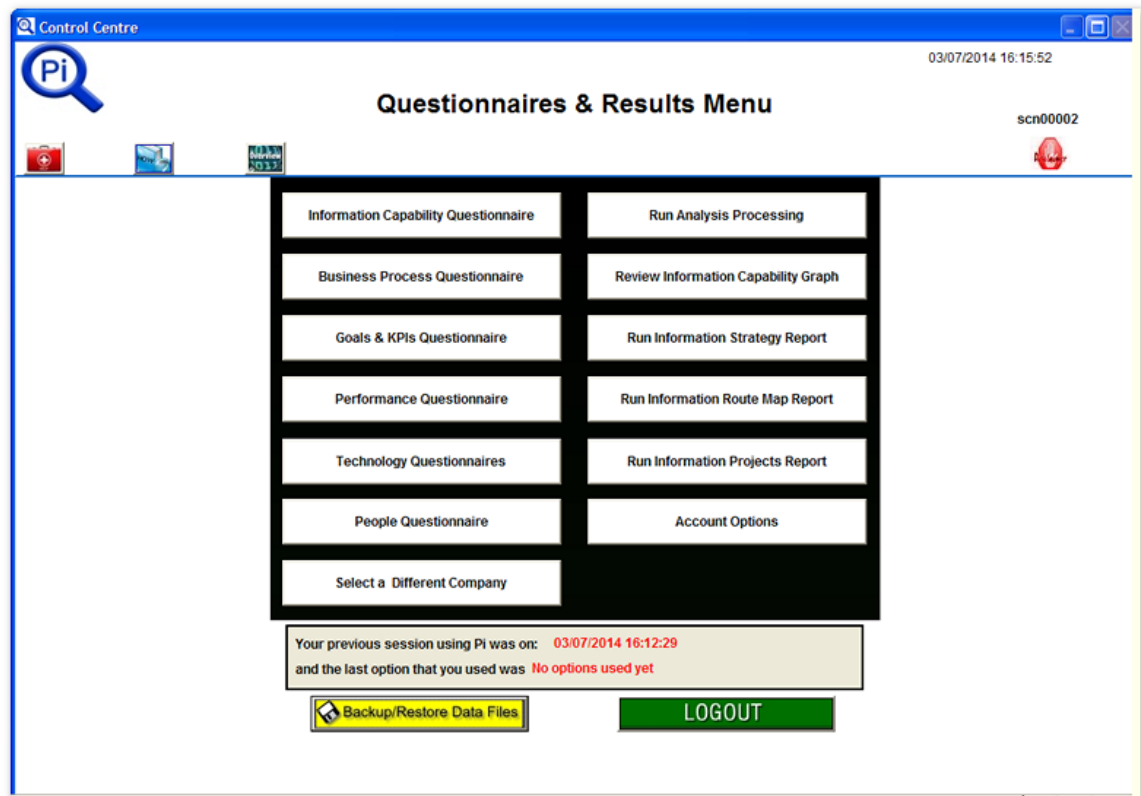

This option is **ONLY** available in the Multi-Company version. After logging in you are taken to this screen where you must select the company you wish to work on from a drop down selection list.

Pressing **EXIT** will quit the application if selected after initial log.

When a company has been selected you are taken to the Control Centre

You can also re-select a New Company from the Control Centre.

2.4 Control Centre

This is the Questions & Results Menu and the Control Centre of the application.

Towards the bottom of the screen is a information box which will inform you of the last time that you used Pi and also the last option that you used.

On this screen you have access to the following options:

Information Capability Questionnaire

This gives access to the Information Capability Questions section of the application

Business Process Questionnaire

This gives access to the Business Processes section of the application.

Goals & KPIs Questionnaire

This gives access to the Goals and Objectives section of the application

Performance Questionnaire

This gives access to the Performance section of the application

Technology Questionnaires

This gives access to the Technology section of the application

People Questionnaire

This gives access to the People section of the application

Select a Different Company

This allows Selection of a new Company (*Multi-Company version only*)

Run Analysis Processing

This runs the overall analysis of all the input made by you

Review Information Capability Graph

This gives access to the Information Capability Results / Graph section of the application

Run Information Strategy Report

This will run the Information Strategy Report

Run Information Route Map Report

This will run the Information Route Map Report

Run Information Projects Report

This will run the Information Projects Report

Account Options Menu

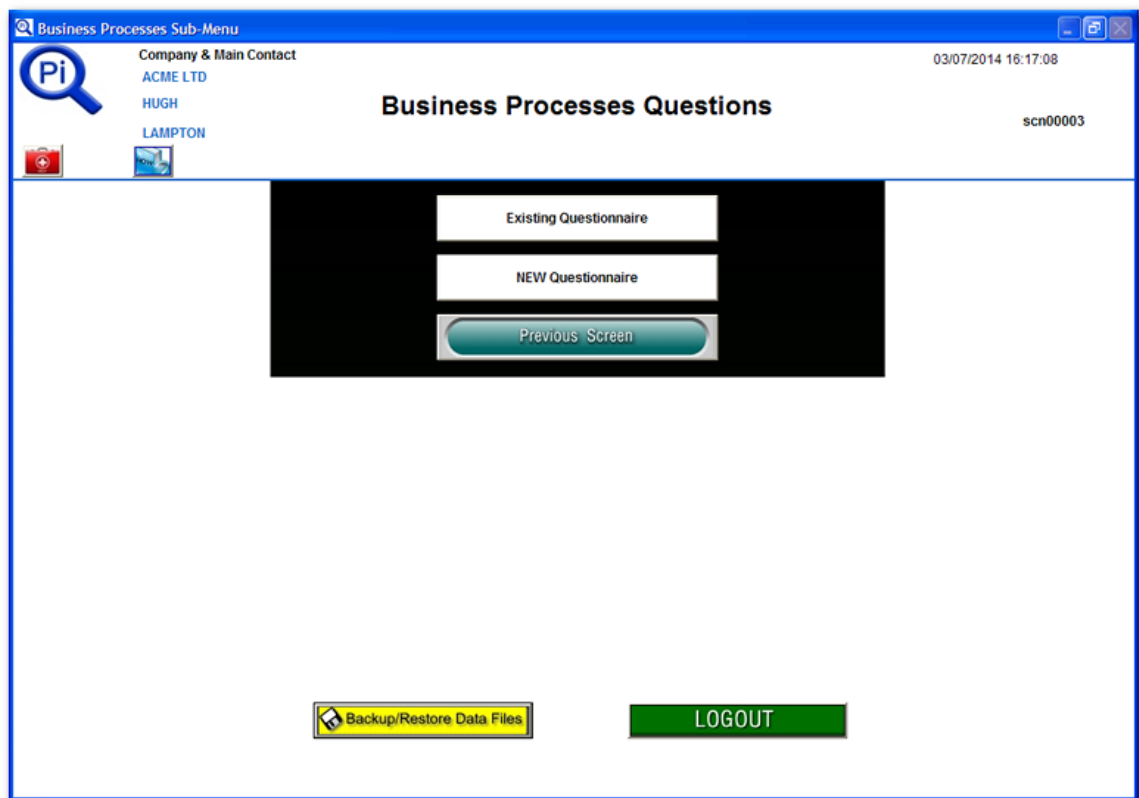

This gives access to Account Options Menu

Backup / Restore Data Files

This gives access to Data File Security options

Pressing the **LOGOUT** button quits from the application

2.5 Business Process Sub-Menu

Here you may select to access an **EXISTING** Business Process Questionnaire, Create a **NEW** Business Process Questionnaire or Return to the Control Centre, by clicking the Appropriate button.

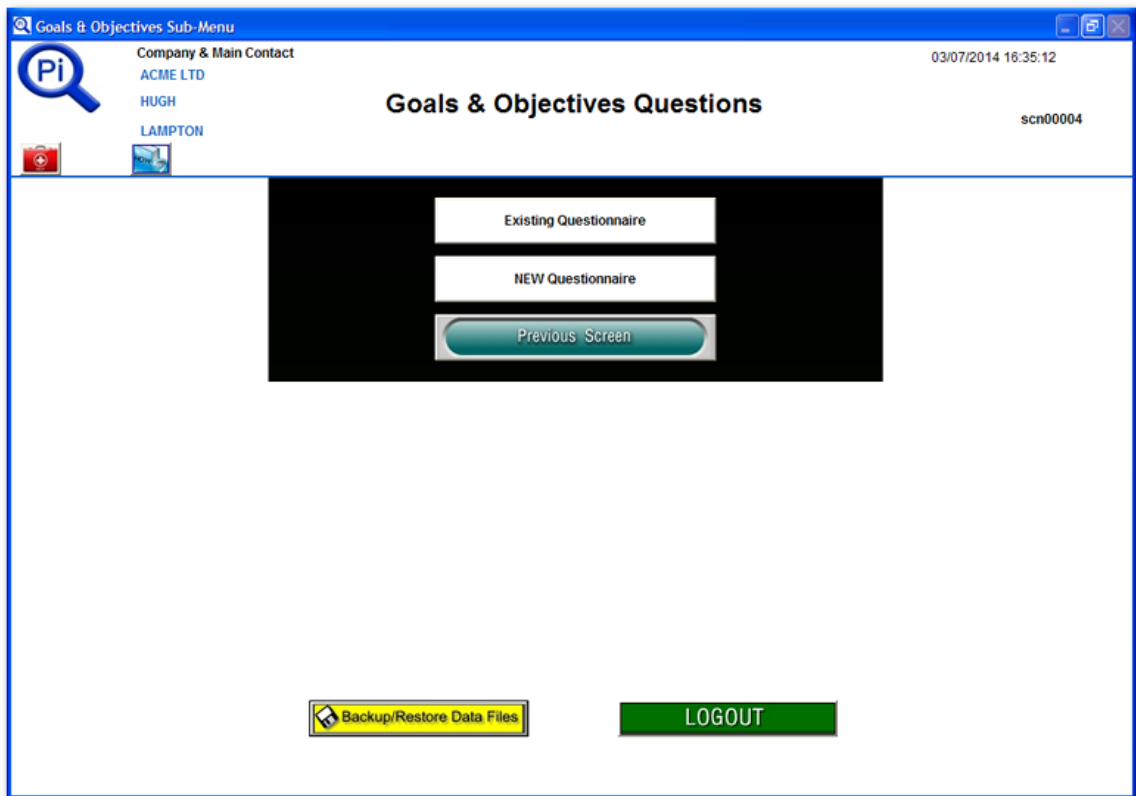

Existing Questionnaire New Questionnaire Previous Screen

Backup / Restore Data Files

This gives access to Data File Security options

Pressing the **LOGOUT** button quits from the application

2.6 Goals & Objectives Sub-Menu

Here you may select to access an **EXISTING** Goals & Objectives Questionnaire, Create a **NEW** Goals & Objectives Questionnaire or Return to the Control Centre, by clicking the appropriate button.

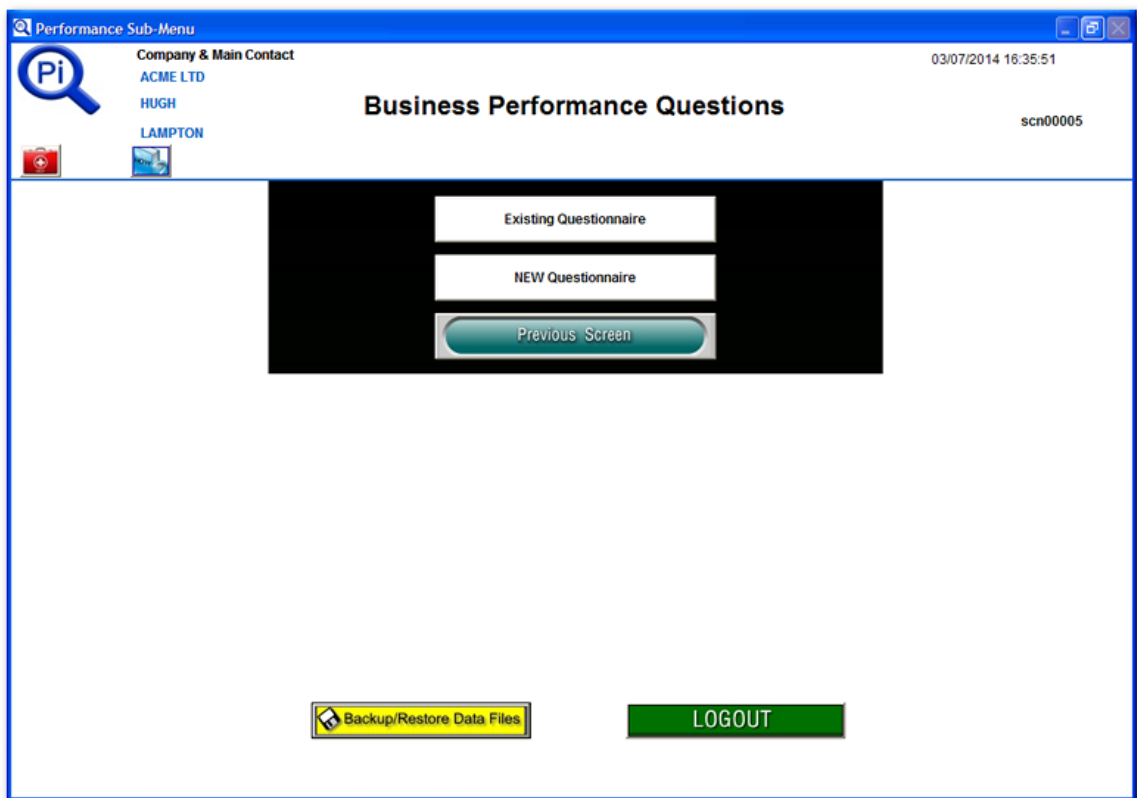

Existing Questionnaire New Questionnaire Previous Screen

Backup / Restore Data Files

This gives access to Data File Security options

Pressing the **LOGOUT** button quits from the application

2.7 Performance Sub-Menu

Here you may select to access an **EXISTING** Performance Questionnaire, Create a **NEW** Performance Questionnaire or Return to the Control Centre, by clicking the appropriate button.

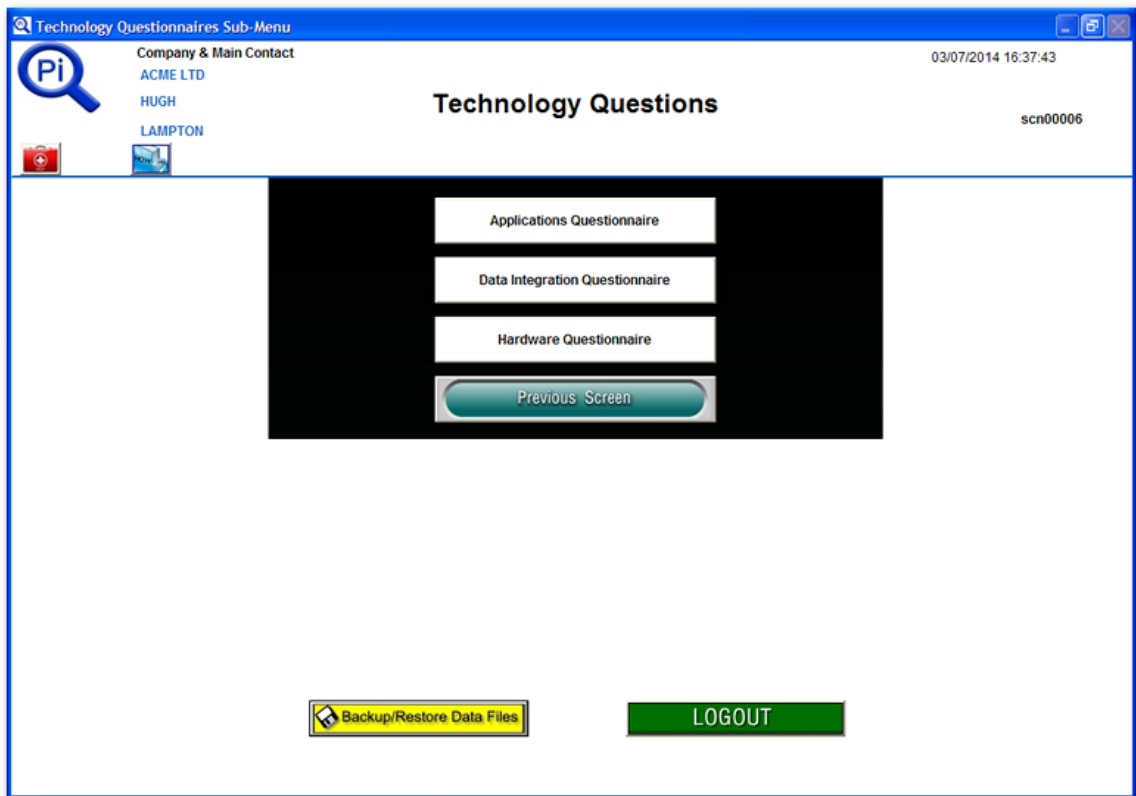

Existing Questionnaire New Questionnaire Previous Screen

Backup / Restore Data Files

This gives access to Data File Security options

Pressing the **LOGOUT** button quits from the application

2.8 Technology Questions

Here you may select to update your questionnaire for Technology Applications, Data Integration or Hardware or Return to the Control Centre, by clicking the appropriate button.

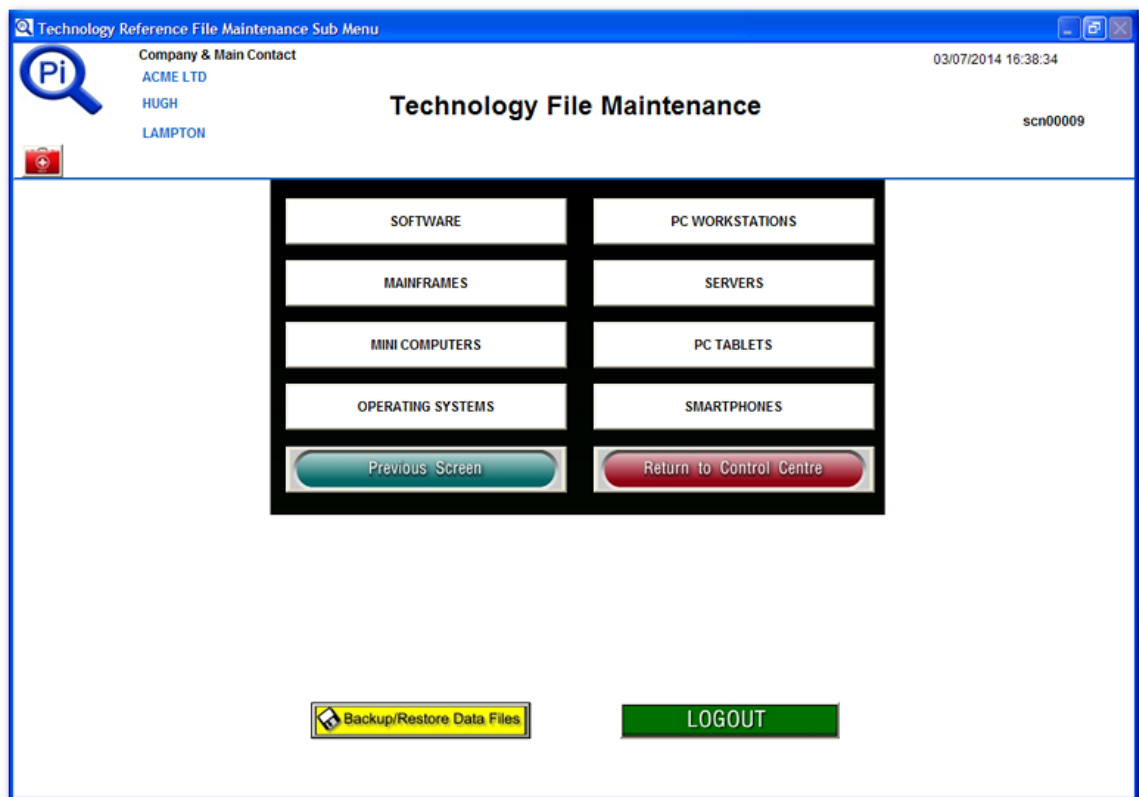

Applications Data Integration Hardware Previous Screen

Backup / Restore Data Files

This gives access to Data File Security options

Pressing the **LOGOUT** button quits from the application

2.9 Technology Sub Menu

This menu allows you to add new components to the following reference files:

SOFTWARE
MAINFRAMES
MINI COMPUTERS
OPERATING SYSTEMS
PC WORKSTATIONS
SERVERS
PC TABLET
SMARTPHONE

Clicking the Previous Screen button returns you to the File Maintenance Sub Menu.

Backup / Restore Data Files

This gives access to Data File Security options

Pressing the **LOGOUT** button quits from the application

2.17 Business Processes - Existing

This section is one of the most crucial parts of Pi. In this section you must answer questions that directly relate to the Business Processes of your company (employer). There are 100 questions to be answered available from the 10 screens of this section of Pi.

When the option is selected from The Business Processes Sub-Menu the following screen is displayed:

Here you can select from the various Questionnaires that are available under your company number. These can be different versions of your Business Process answers and can be used to analyse the effect on your overall Information Capability Score.(IC Results/Graph option from the control centre menu) in a what-if scenario.

Note: When you ask Pi to 'Run Analysis' or the Strategy,Route Map or Projects results from the control centre menu it will always use MASTER questionnaires. These MASTER are used to hold the TRUE or REAL position of the selected company (current scenario) of each questionnaire and effect the recommendations and output that Pi produces. On this selection screen and the following questionnaire screens Pi will clearly inform you when you are editing the "MASTER" questionnaire.

Once you have selected the questionnaire that wish to use you should click the Select button and the following screen is displayed:

Questions 11 - 20

SAVE

EXIT

This is the first screen of the 2 available and presents you with the first 10 questions to be answered. The first 10 Performance Metrics are presented and besides each is a drop-down selection box. For each you must the percentage being currently achieved in terms of performance. The Drop down box allows selection of percentage s from 1 -100.

Once you have completed the answers for this screen you should proceed through the questionnaire to answer all 20 questions. Navigation is achieved by clicking the navigation button of the left hand side of each screen which allow you to proceed logically through the questionnaire or to jump around within it.

Below the questions is a Print Button which allows you to print a copy of the Metrics and the answers entered. Your reports are also SAVED to Disk in Word Processor Universal RTF Format and can be reviewed at anytime see Reports saved to disk

Screen 2

SAVE

EXIT

Here you are presented with two screens on which you must identify the products in use and numbers of users for each of the 17 application areas.

Selection of product for each application area is made by use of a drop-down pick list. You must select a product which will automatically populate the vendor details and then identify how many users actually use this application. (If you do not use any products for an application area you must indicate this by selecting **<NONE>** from the drop down list.)

Once you have completed the answers for this screen you should proceed through the questionnaire to complete details for all 17 application areas. Navigation is achieved by clicking the navigation button of the left hand side of each screen which allow you to proceed logically through the questionnaire or to jump around within it.

Below the questions is a Print Button which allows you to print a copy of the Applications and the answers entered. Your reports are also SAVED to Disk in Word Processor Universal RTF Format and can be reviewed at anytime see Reports saved to disk

Continuous Information Advantage

At anytime you may save your answers or exit back to the Control Centre by use of the **SAVE** and **EXIT** buttons located at the bottom right hand section of each screen.

2.26 Run Analysis

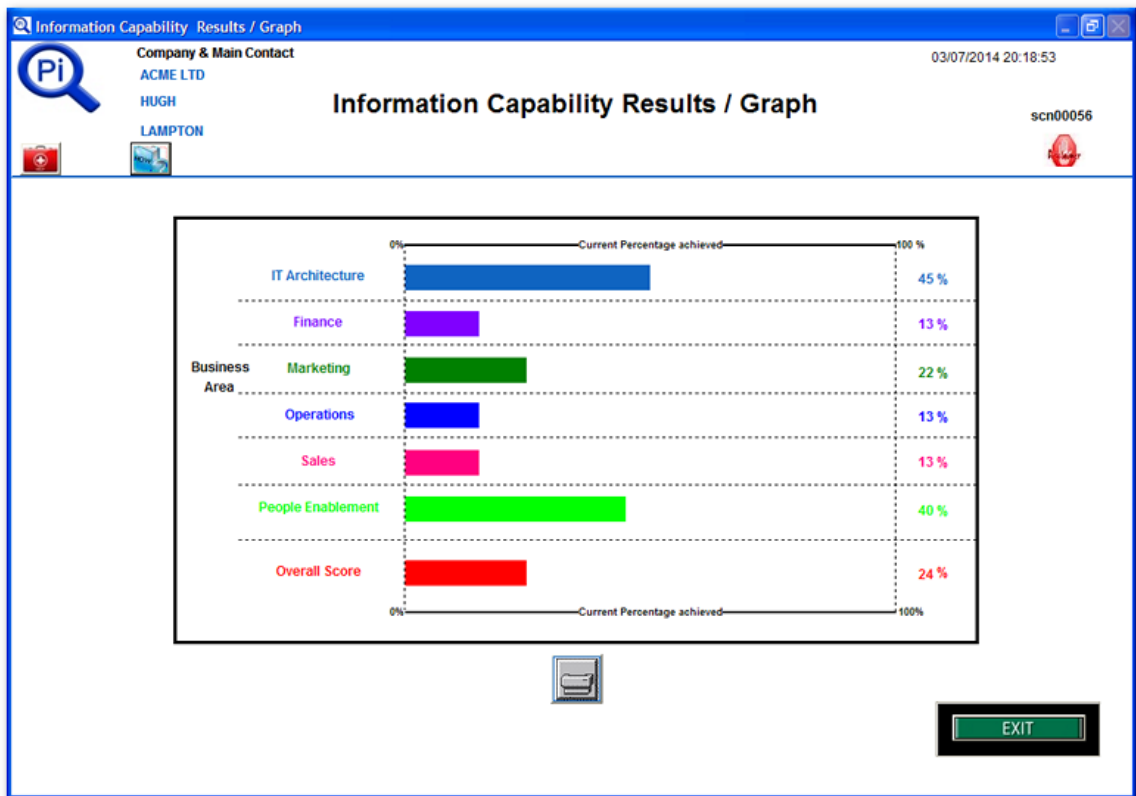

A rectangular button with a black border and a white background. The text "Run Analysis Processing" is centered in a blue, sans-serif font. The button is set against a black background.

Run Analysis Processing

Selection of this option from the Control Centre will update all scoring throughout the system by analysing the latest answers and inputs. **Note:** This will always use the Master records from the Performance, Goals/Objectives and Business Processes Questionnaires, as these represent the actual/current position at the User company and it is this position on which Pi makes its recommendations.

[Back to Control Centre](#)

2.27 Information Capability

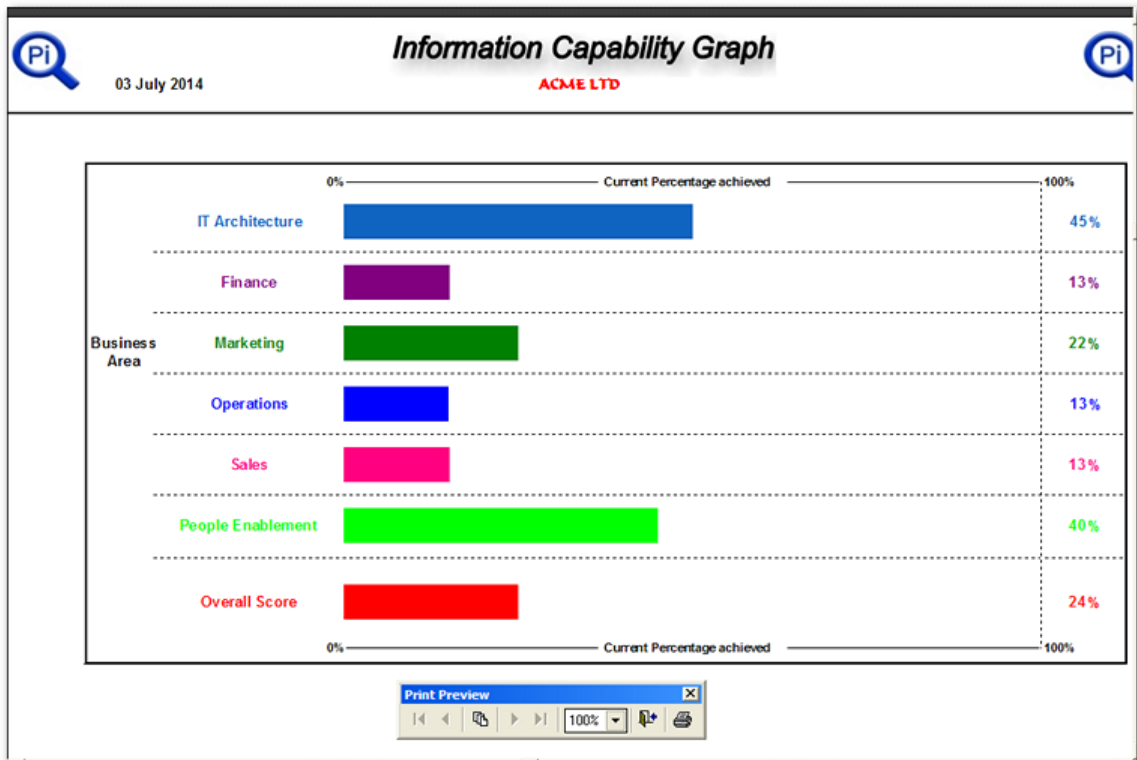

This allows You to review your company's current Information Capability based on the answers provided by you in the questionnaire sections of the application.

You may also create a hardcopy of the Information Capability Graph by clicking the **Printer Icon** button or may return to the Control Centre of the application by clicking the **EXIT** button. Your reports are also SAVED to Disk in Word Processor Universal RTF Format and can be reviewed at anytime see Reports saved to disk

* Note: In the Performance, Goals/Objectives and Business Processes sections of the application you may have several versions of these questionnaires. For the purpose of this graphic /report, it will be based on the last questionnaire within each section that you have accessed and SAVED. This is useful for "what-if" scenarios. However, the procedures that generate the Strategy, Route Map and Project Plan reports will always use the Master View (record) of these questionnaires as they reflect the actual position of your company and it is this position that Pi bases its recommendations upon.

If you wish to use or re-select the MASTER copies of each questionnaire you should run the Analysis procedure. see Run Analysis

The graph/report is also saved to disk for later review. see View Information Capability Graphs

2.28 Reports saved to disk

All the reports that Pi produces are also saved automatically to disk, in word processor format so that they can be viewed or attached to emails at a later time. This also negates the need to print out reports. Each report displayed on screen indicates at the bottom the disk location of where it is actually saved.

Using the Account Options Menu sub-menu gives you full access to all reports and transactions held on disk.

As the reports are saved in universal word processor format in some packages e.g. MS Word it may be necessary to change the page orientation to Landscape in order to view or print the report properly. This is easily done by using the **File - Page Setup - Landscape - OK** option from the MS Word Menu system.

2.29 Sequence to use when running Reports

In order to get accurate reports based on the MASTER questionnaire files you should do the following:

1. Run Analysis This will ensure that the recommended projects are selected
2. If the Salaries of your own project staff or the Daily Rates charged by project subcontractors have changed the you should use
Update Project Resource Details function
3. If you want to update the Project Resource Split viz; allocate staff between your own project staff and external personnel working on projects then you should use one or all of the following functions:
Applications Projects Resources
Business Process Projects Resources
Data Integration Projects Resources
4. Use the Run Analysis function again
5. Run one or all of the following:
Information Strategy Report
Information Route Map Report
Information Projects Report

Using this sequence correctly will ensure the most accurate reports.+

2.30 Information Strategy Report

Run Information Strategy Report

Note* Before Running this report you should use the Run Analysis function. Also see Sequence to use when running Reports

On selection of this option from the main menu, Pi will produce the complete Information Strategy Report.

This consists of:

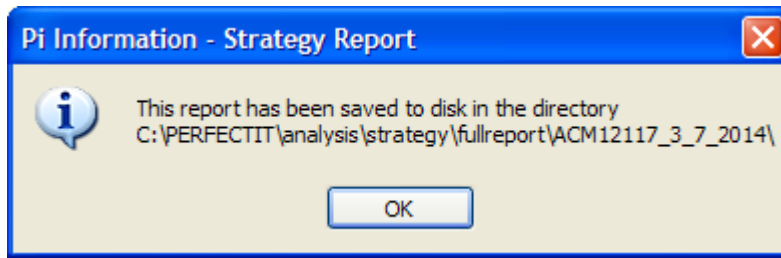

- An Executive Summary
- The Current Position
- Recommended Actions

*A dialogue box allows you to choose to review the report onscreen. If you decide not to review the report onscreen a progress bar will appear whilst the report is written to disk.

*The report is both displayed on screen from where the individual report pages can be printed and is also saved to disk in word processing format.

When the report has been viewed on screen, you are informed, via a message box on screen, of the directory in which the report has been saved and you are then returned to the Control Centre.

There are 26 sections within the report covering:

1. Executive Summary

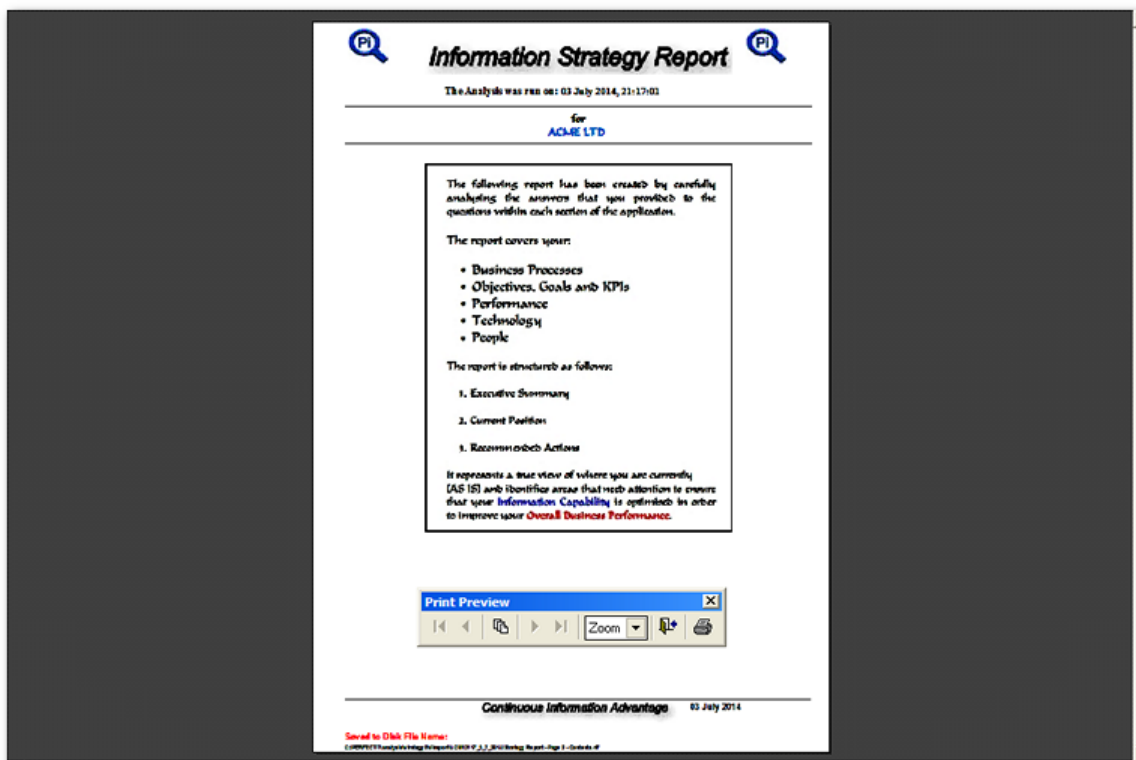

Current Position

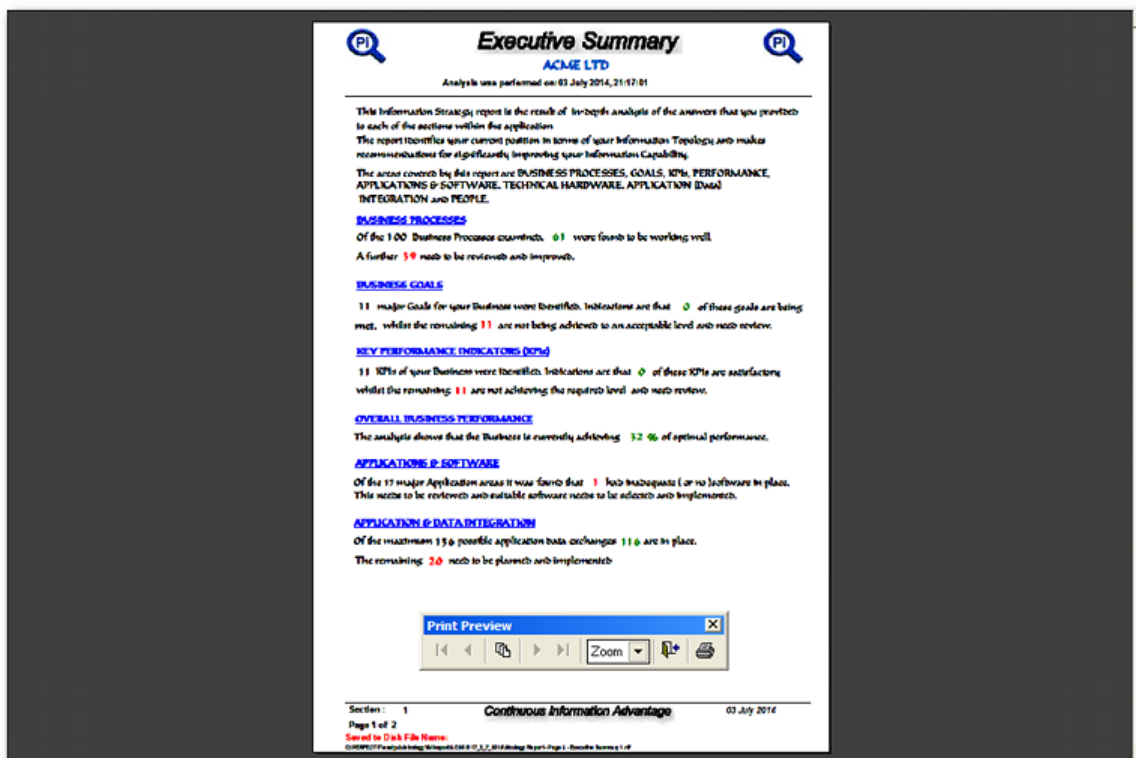

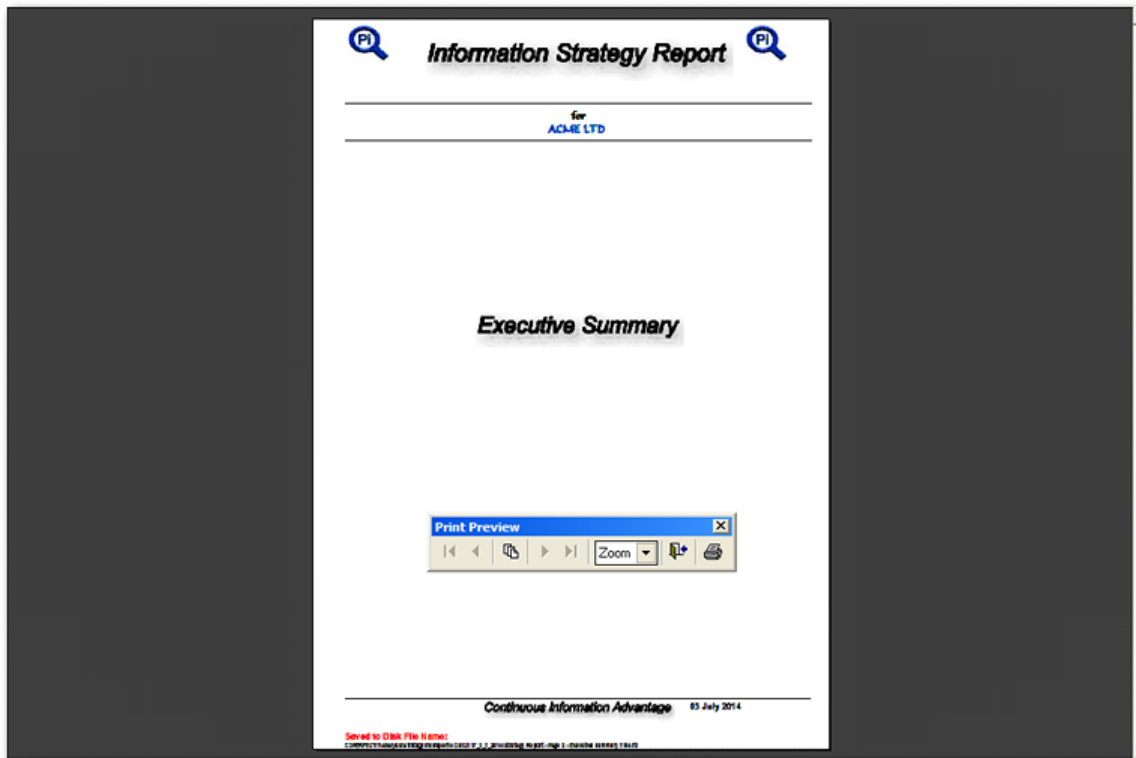

2. Good Business Processes
3. Bad Business Processes
4. Business Goals
5. KPIs
6. Importance Rankings
7. Business Performance
8. Applications and Software
9. Hardware
10. Existing Data Integration
11. Required Data Integration
12. Staff Numbers
13. Staff Business Knowledge
14. Staff IT Knowledge
15. Staff Information Exchange
16. Staff Attrition

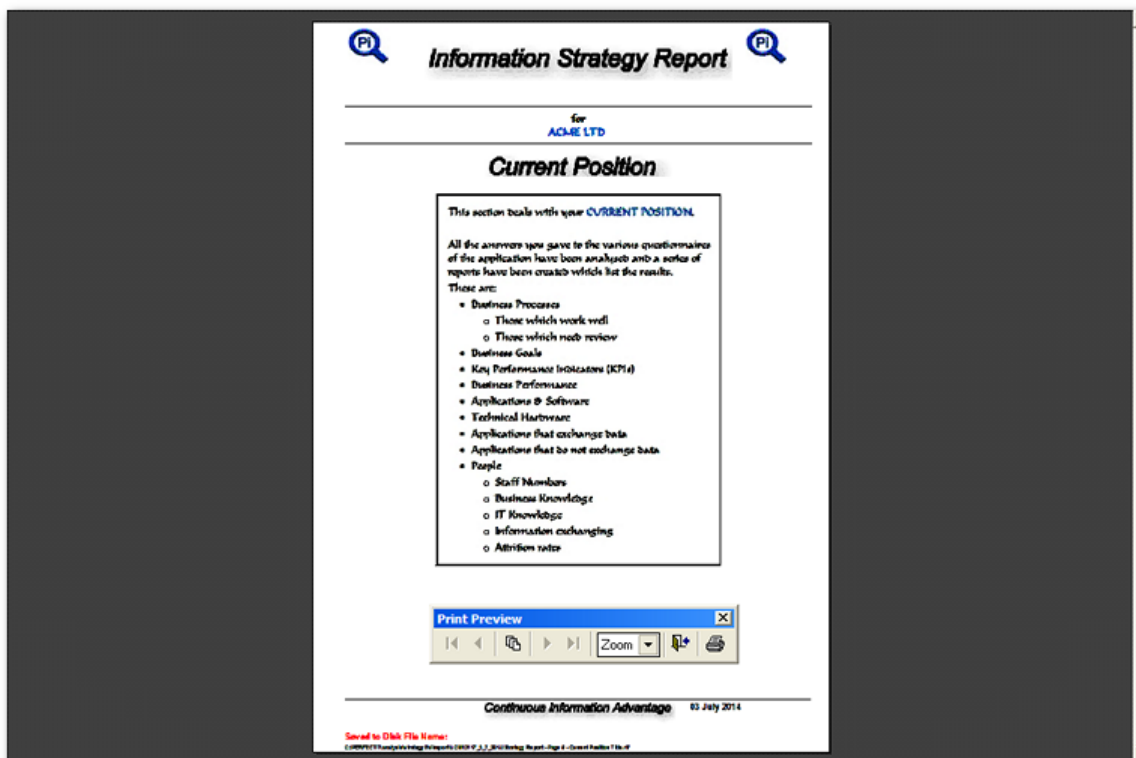

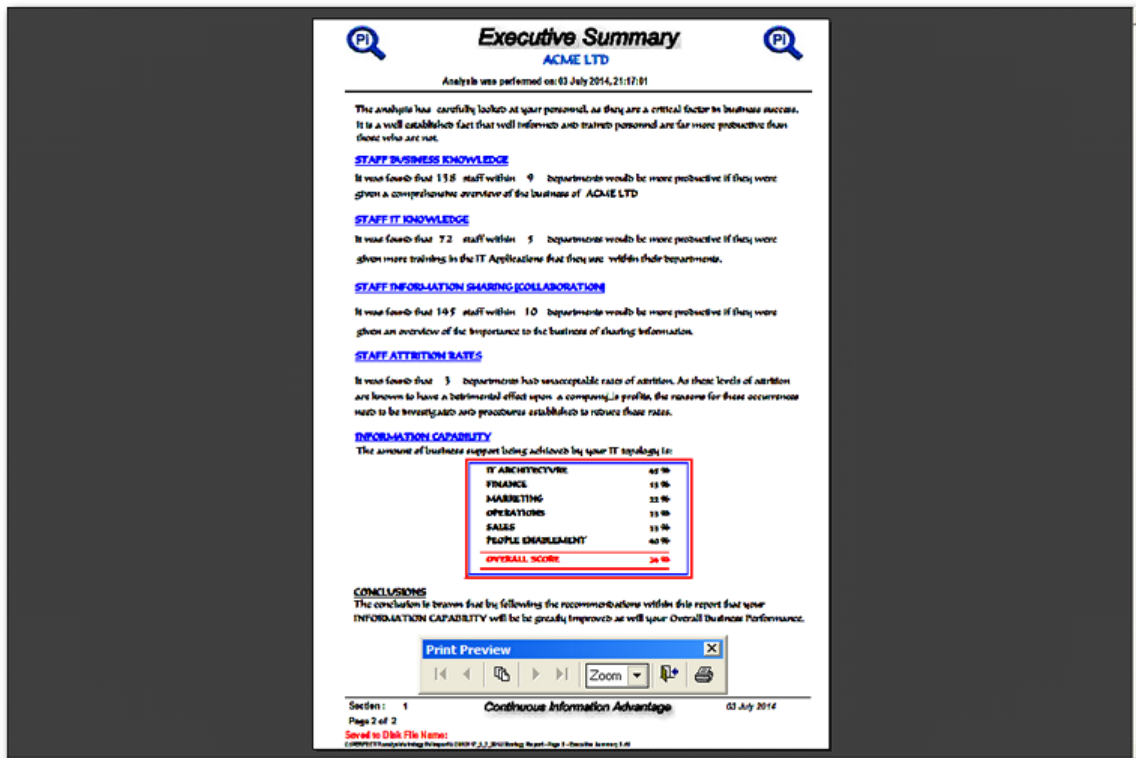

Recommended Actions

17. Business Processes to Review
18. Goals to Review
19. KPIs to Review
20. Applications to Review
21. Data Integration to Review
22. Business Knowledge Training
23. IT Skills Training

2.31 Information Route Map Report

A rectangular button with a black border and a light gray background. The text "Run Information Route Map Report" is centered in a black, sans-serif font.

Note* Before Running this report you should use the Run Analysis function. Also see Sequence to use when running Reports

On selection of this option from the main menu, Pi will produce the complete Information Route Map Report.

The report consists of 3 sections:

The first section is a Summary of Recommended Technical Projects.

The second section is a Departmental Breakdown of Recommended Staff Training by Course.

The third section provides an Estimate of the Costs for the Recommended Training by Department and in Total.

*A dialogue box allows you to choose to review the report onscreen. If you decide not to review the report onscreen a progress bar will appear whilst the report is written to disk.

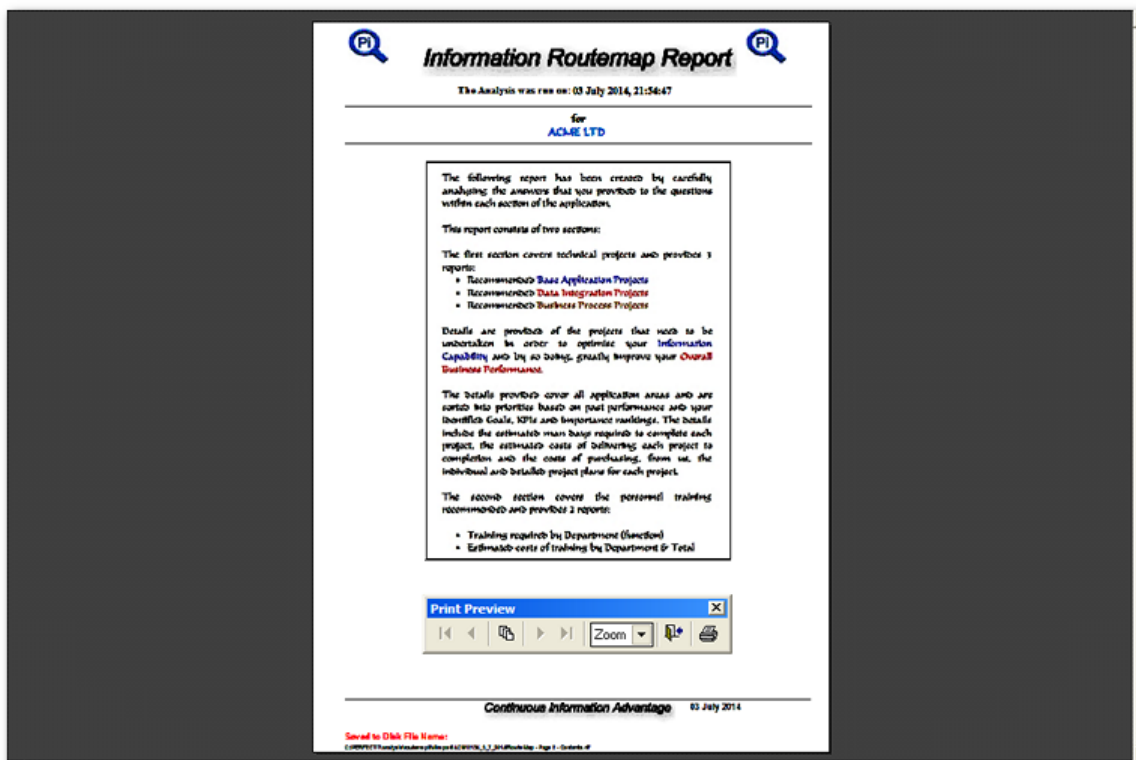

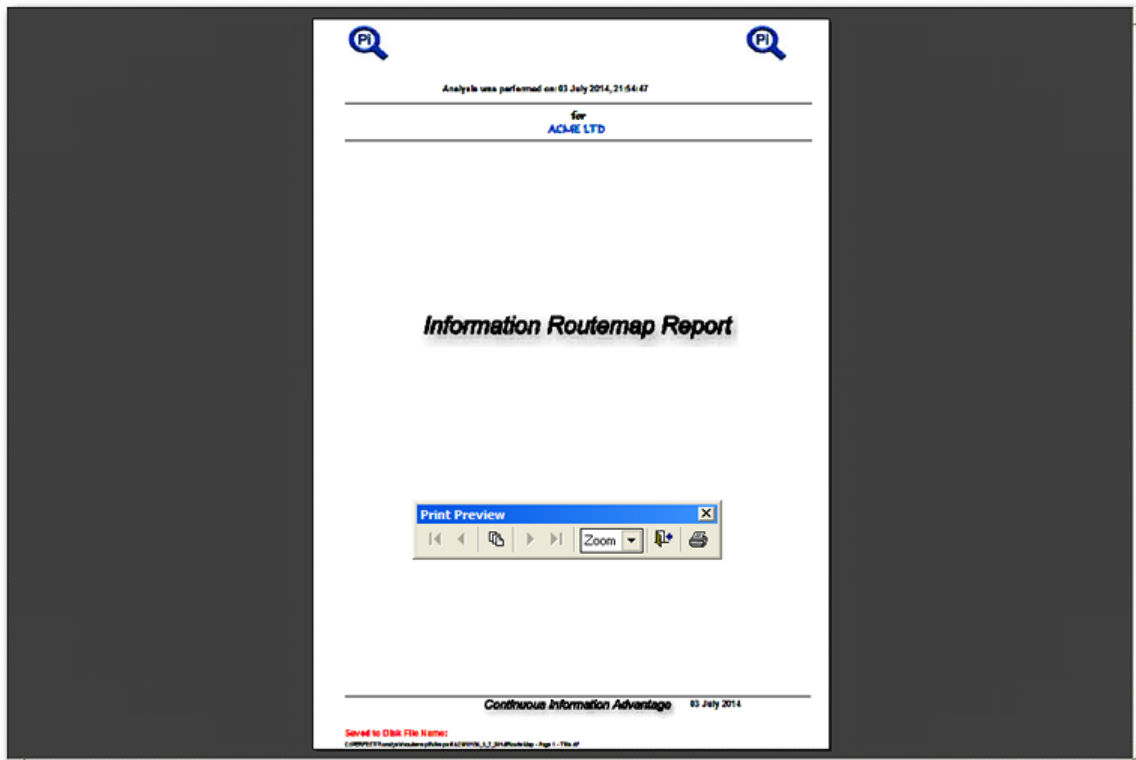

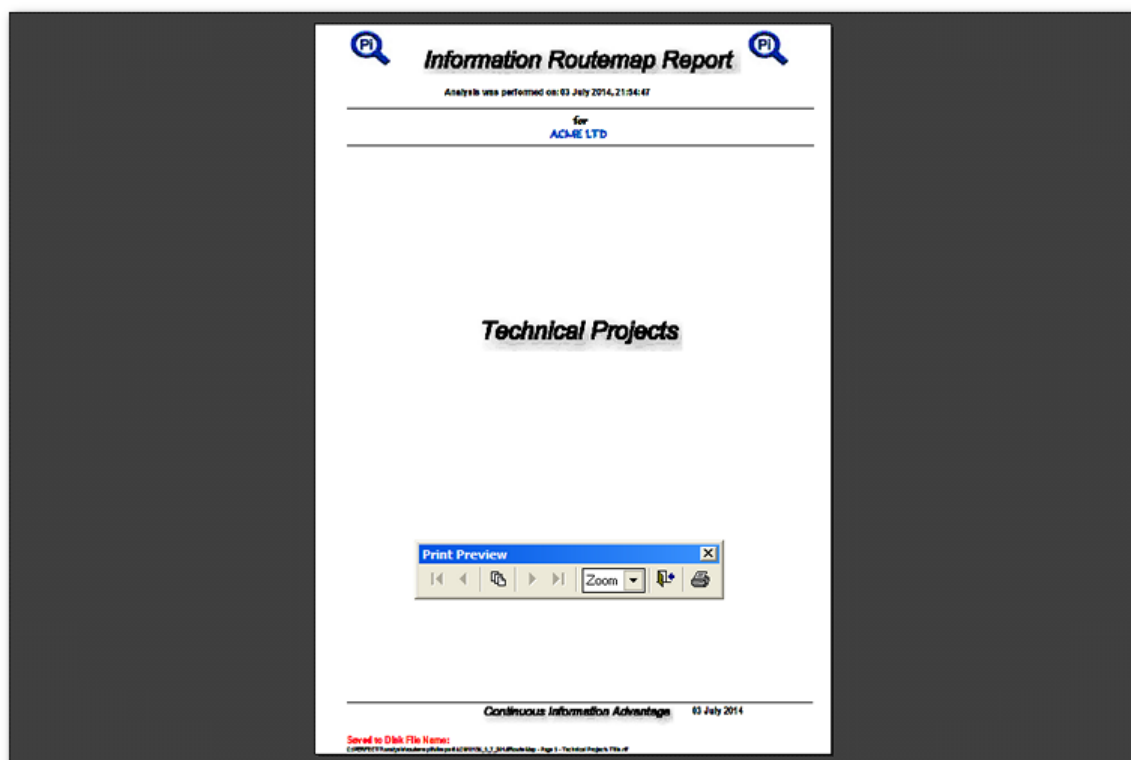

*The report is both displayed on screen from where the individual report pages can be printed and is also saved to disk in word processing format.

When the report has been viewed on screen, you are informed, via a message box on screen, of the directory in which the report has been saved and you are then returned to the Control Centre.

An example of the complete report is below:

2.32 Information Projects Report

A rectangular button with a black border and a white background. The text "Run Information Projects Report" is centered in a blue, sans-serif font.

Note* Before Running this report you should use the Run Analysis function. Also see Sequence to use when running Reports

On selection of this option from the main menu, Pi will produce the complete Project Plans Report.

The report consists of 4 sections:

- Detailed Recommended Base Application Projects to be undertaken
- Detailed Recommended Data Integration Projects to be undertaken
- Detailed Recommended Business Process Projects to be undertaken

All include details of estimated Man days and costs and the projects are prioritised based on the results of the analysis performed.

Attached to this report is an additional report which details the Information Gaps identified by the analysis performed

*A dialogue box allows you to choose to review the report onscreen. If you decide not to review the report onscreen a progress bar will appear whilst the report is written to disk.

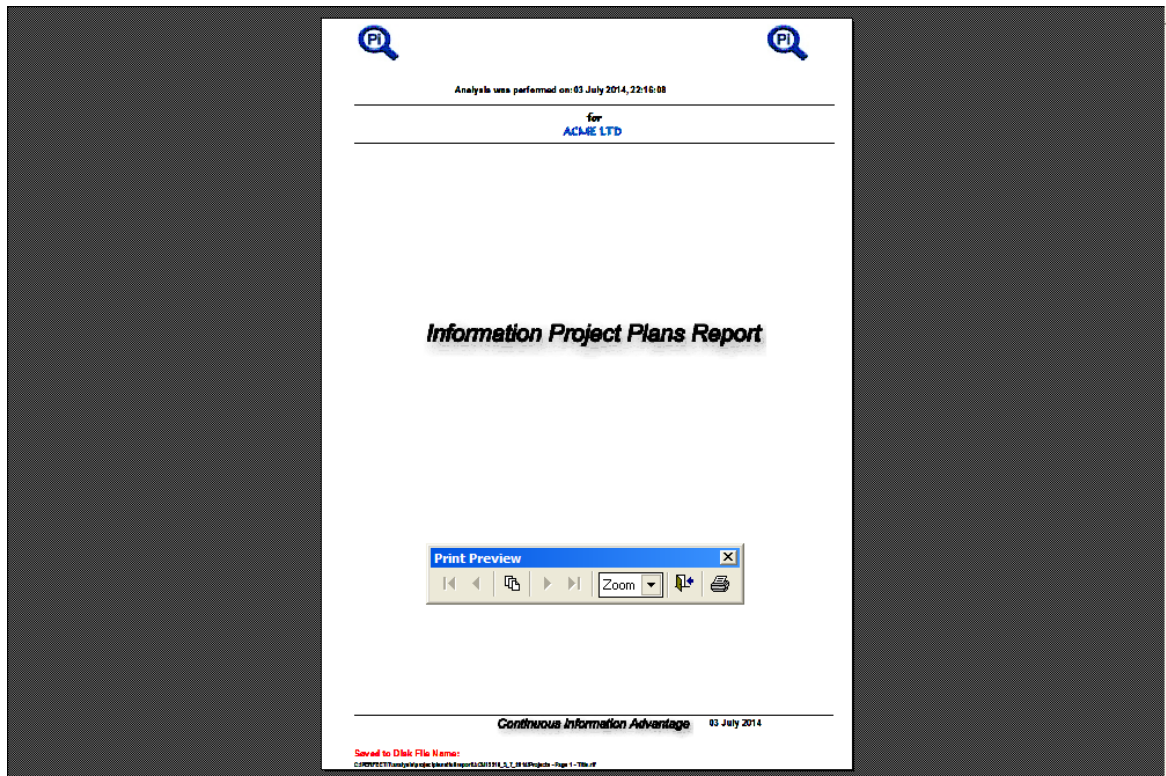

*The report is both displayed on screen from where the individual report pages can be printed and is also saved to disk in word processing format.

When the report has been viewed on screen, you are informed, via a message box on screen, of the directory in which the report has been saved and you are then returned to the Control Centre.

INFORMATION GAPS

ACME LTD

IT ARCHITECTURE

The following question(s) were answered with a negative response. This indicates that there is an Information Gap(s) that needs to be filled. This will have been identified by the analysis performed and resolution will be included in one of the recommended Projects.

Do you have an automated system that tracks and manages software licenses for your company's computers?

Does your company use a standard pre-configured set of devices? E.g. Orange Mobile phones, Dell laptops, iPads etc?

Can suppliers and customers access their data through internet or access to your intranet?

FINANCE

The following question(s) were answered with a negative response. This indicates that there is an Information Gap(s) that needs to be filled. This will have been identified by the analysis performed and resolution will be included in one of the recommended Projects.

Can your staff access financial information remotely?

At the end of a financial reporting period, are you able to accomplish the financial close quickly (e.g. in a week or less)?

Does your financial system track credit-worthiness based on payment performance and automatically generate a list of delinquent accounts?

Does your finance system simulate scenarios to project financial results?

With respect to online banking, do you download bank account transactions to your company's financial system?

Do you have software tools that can generate custom financial reports on demand that also allow you to perform scenario analysis?

Do you use a standard set of documents or spreadsheets to regularly track compliance with government regulations or prepare for financial audits?

Is data automatically extracted from your time recording system and transferred to Payroll?

Does your accounts payable system capture and automatically alert you to available early payment discounts or can you set it up to take the discounts automatically?

Does your financial software include Financial Risk alert agents?

OPERATIONS

The following question(s) were answered with a negative response. This indicates that there is an Information Gap(s) that needs to be filled. This will have been identified by the analysis performed and resolution will be included in one of the recommended Projects.

- Is your time and expense system fully integrated with your accounting systems?
- Do you have a standard electronic system for project team members to delegate and report on the progress of their assigned tasks?
- Do you have a centralised electronic system to track contracts and revisions in scope, budget, or staffing for your project engagements?
- Do you have a centralised resume repository or other tracking system to inventory your employees' skill sets?
- Do you have a centralised document repository that has access controls and contains document version control capabilities?
- If a product is not in stock does your system automatically generate a date when it will be in stock?
- After you place an order with a supplier, can the supplier automatically update the purchase order in your system, e.g. when ship dates are confirmed and quantities?
- When you generate a purchase order, does the inventory tracking system know when to expect receipt of the item?
- When you ship to customers, via DHL etc is your system automatically updated with the tracking details and can the customer access these details?
- Can you easily view at any time the summary information about the status of inventory, customer orders, purchase orders and production orders?

SALES

The following question(s) were answered with a negative response. This indicates that there is an Information Gap(s) that needs to be filled. This will have been identified by the analysis performed and resolution will be included in one of the recommended Projects.

- Can Salespeople use a mobile device to access customer sales and contact information e.g. iPhones, Blackberry, iPad or Blackberry Playbook etc?
- Do you have a software tool that helps you track progress of a sale through key stages of your sales pipeline or engagement process?
- Do you have standard set of presentations or templates used for proposal development stored in an electronic repository?
- Can Web customers log in and set up preferences and make electronic payments?
- Can visitors to your Web site use a search feature within your Web site to find specific product/service information?
- Are clients able to log on to your Web site to access information, communications and/or project work specific to them/their?
- Is your database set up to track sales performance metrics or analyse factors such as total client sales activity and profitability, and proposal win rate or similar?
- Do have a standardised way to track customer contact information and sales activity in a database that is accessible to all sales representatives?
- Can executives review Sales and sales people performance in real-time?
- If a customer contacts you about a customer service issue, can they log in and trace the progress of the query and do you automatically notify them on progress?

Double clicking on a sub-directory will open it and display the reports contained within it. This pop-up window can be closed by clicking **File**, then **Close** from the Menu options at the top of the pop-up window.

Once the document you wish to review has been located, double-clicking on it will load it into your word processor package for viewing or printing.

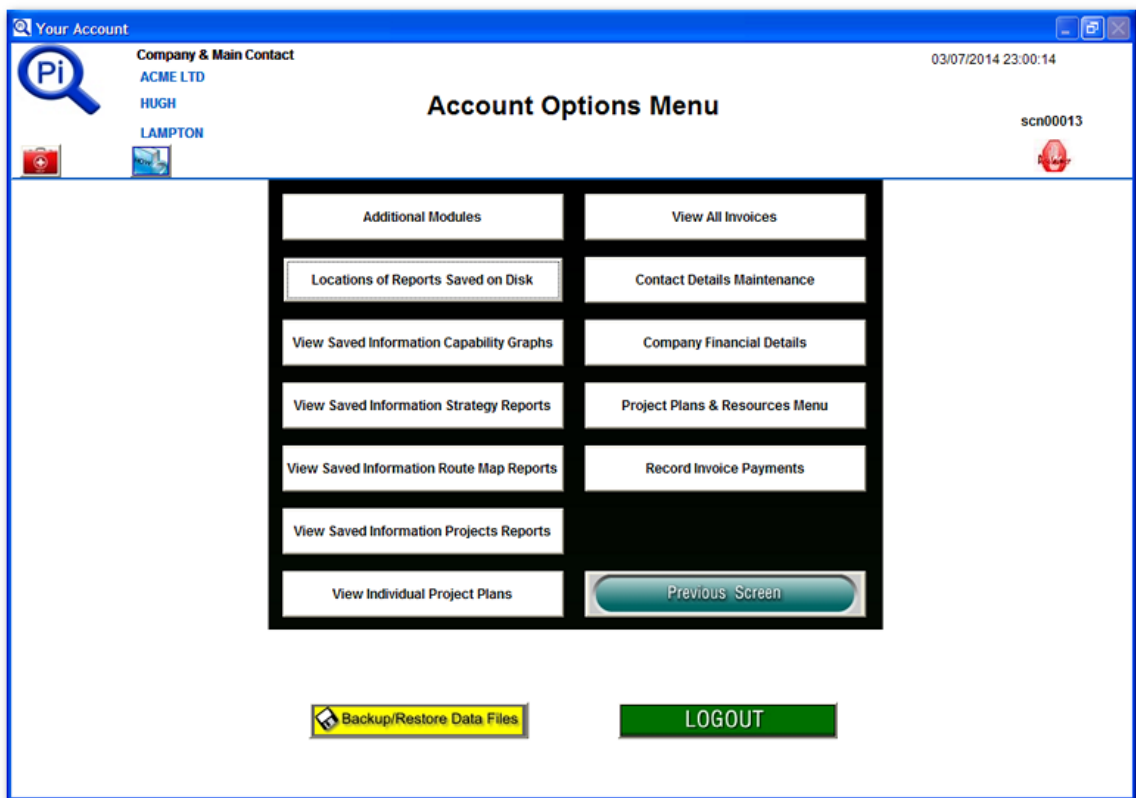

Name	Folder Size	Size	Type	Date Modified
acm1_it architecture_25-6-2014_12-59.rtf	59 KB	59 KB	Rich Text Format	25/06/2014 12:59
donotdeletethisfile.doc	24 KB	24 KB	Microsoft Word Doc...	09/02/2014 16:28

The directory names indicate what reports are contained within each e.g. in the example shown above the Directory **ICFinanceanswers** contains reports which show your answers to the **Finance** section of the Information Capability Questionnaire. Each individual file name is made up of the Company short code e.g. ACM1 in this example, a short description of the report specific content (e.g. finance) and the date and time the report was created. If the file is a reference file e.g. Types of Mini Computer the file name will be made up of a description e.g. mini computer hardware plus the date and time the report was created e.g. 'mini computer hardware_1816_11_6_2014.rtf'

UPDATE

EXIT

This screen is used for the Maintenance of your own Company details.

In the multi-company PC version these are the details that will appear on client invoices. In the Standalone PC Single Company Version these are the details that will appear on your Purchase Orders.

You can update data in any of the following fields:

- Company Name*
- Address line 1*
- Address line 2
- Address line 3
- County*
- Post Code*
- Country*
- Telephone Number*
- Fax Number*
- Email address*
- Website Address*
- VAT Registration Number*
- Company Registration Number*

* Should any of these be left blank an error message will be generated and the original value is restored to the field.

Once you have made the necessary changes you should click the “**UPDATE**” key and the record will be updated and a message will be displayed indicating success.

Clicking th **EXIT** button returns you to the Contact Details Menu

ADD
EXIT

This option allows you to add a new company. This option is **ONLY** available in the Multi-Company version.

You must enter the Following Details:

COMPANY NAME

INDUSTRY (Selection From Drop Down Selection List)

VAT TYPE (Selection From Drop Down Selection List)

BASE CURRENCY (Selection From Drop Down Selection List)

DISCOUNT GIVEN (If any)

PREFERRED COMMUNICATION METHOD (Selection From Drop Down Selection List)

SWITCHBOARD TELEPHONE NUMBER

WEB SITE ADDRESS

Error checking is performed to ensure all valid inputs have been made and error messages appear if any data is missing.

Clicking th **EXIT** button returns you to the Contact Details Menu

When input is complete you should click the Add button and you are taken to the following screen:

The screenshot shows a web browser window titled "Add a New Company - Address Details". The page has a blue header bar with a "Pi" logo and a magnifying glass icon on the left. The main content area is white and contains a black rectangular form titled "New Company" and "Address Details". The form is for "XYZ LIMITED" and contains the following fields: "Address Line 1" (1 LONG LANE), "Address Line 2" (ON THE CORNER), "Address Line 3" (DOWNTOWN), "County (State)" (WESSEX), "Post Code (ZIP)" (WE12 2DD), and "Country" (United Kingdom). A yellow error message box at the bottom center says "Indicates an Error has been made". A red "ADD" button is located at the bottom right of the form.

Here you must complete the ADDRESS (Location details) of the new company (User).

The following fields must be completed:

ADDRESS LINE 1 (Mandatory)

ADDRESS LINE 2

ADDRESS LINE 3

COUNTY (STATE)

POST CODE (ZIP) (Mandatory)

COUNTRY(Selection From Drop Down Selection List) (Mandatory)

Error checking is performed to ensure all valid inputs have been made and error messages appear if any data is missing.

When input is complete you should click the Add button and you are taken to the following screen:

03/07/2014 23:07:48
scn00093

New Company

XYZ LIMITED
Contact Details

First Name

Surname

Job Title

email address

Telephone Number

Fax Number

Indicates an Error has been made

ADD

Here you must enter details of the main contact at the company. The following fields must be completed:

FIRST NAME (Mandatory)

SURNAME (Mandatory)

JOB TITLE

EMAIL ADDRESS

TELEPHONE NUMBER (Mandatory)

Saved to Disk File Name: C:\PROJECTS\COMPANY CONTACTS\ACME CONTACTS_03_07_14.DAT

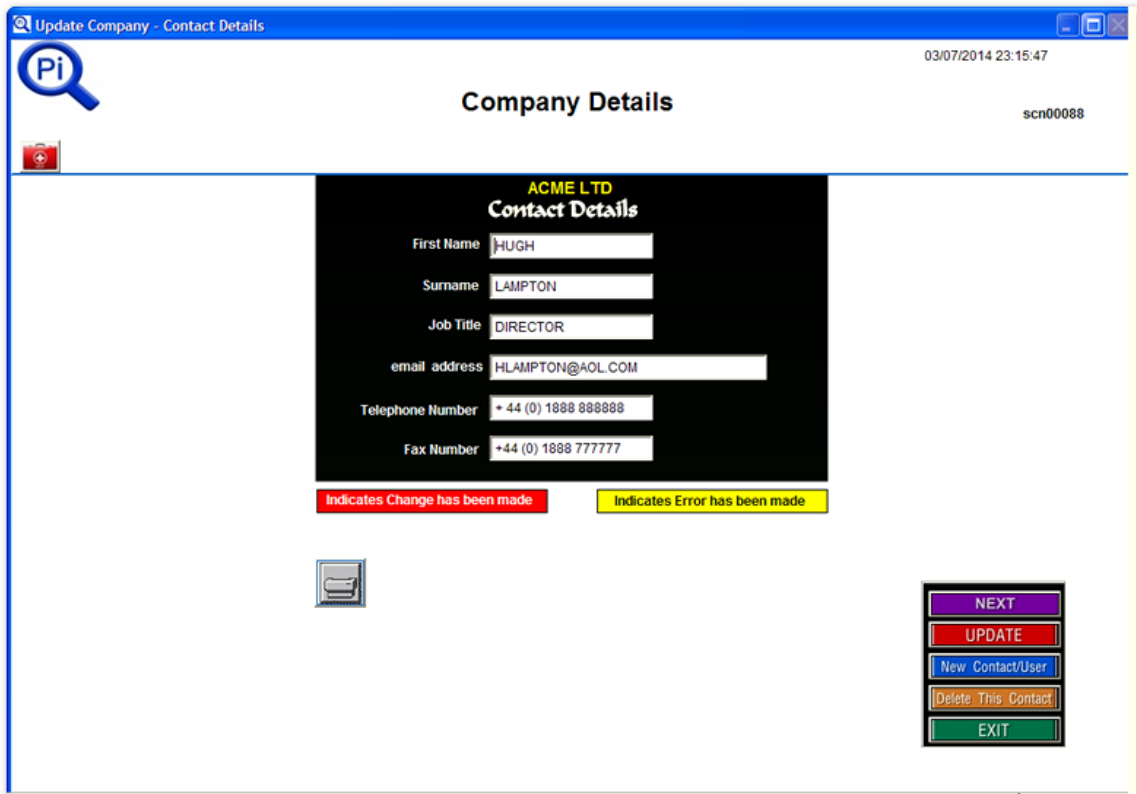

A print preview button is displayed with each report reviewed on screen which allows you to produce a hardcopy of the report on your printer and to move around within the report.

At the foot of the report the location and name of the saved word processor file is displayed.

The location of the file on disk is also displayed in an onscreen informational message when you exit the report or when it has been saved to disk.

Clicking the EXIT button returns you to the Contact Details Menu

2.48 Update Company Contacts Details

Here you may update the personal contact details for the selected company. The following fields can be updated:

FIRST NAME (Mandatory)

SURNAME (Mandatory)

JOB TITLE

EMAIL ADDRESS

TELEPHONE NUMBER (Mandatory)

FAX NUMBER

When the necessary changes have been made you should click the Update button.

Clicking th **EXIT** button returns you to the Contact Details Menu

If you wish to add a new contact for the selected company you should click the New Contact/User button and the following screen will be displayed:

The screenshot shows a web application window titled "Add a New Contact". The window has a blue header bar with the title and standard window controls. Below the header, there is a Pi logo and a date/time stamp "03/07/2014 23:17:07". The main content area is titled "Company Details" and displays a form for "ACME LTD". The form fields are: First Name, Surname, Job Title, email address, Telephone Number, Fax Number, User ID, and Password. A yellow warning box below the User ID field states "Please make a note of your User ID and Password". A yellow error message box at the bottom of the form says "Indicates Error has been made". At the bottom right of the form, there are two buttons: "ADD" (red) and "EXIT" (green).

The following fields must be completed:

FIRST NAME (Mandatory)
SURNAME (Mandatory)
JOB TITLE
EMAIL ADDRESS
TELEPHONE NUMBER (Mandatory)
FAX NUMBER

Note. If you are adding a new user for your own company the following fields will be displayed and a password must be entered

USER ID *
PASSWORD (Mandatory)
The system will allocate the USER ID

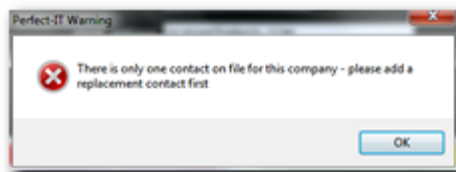

Clicking the **EXIT** Key returns you to the previous screen.

When input is complete you should click the Add button, the new contact is added and you are returned to previous screen.

If you wish to delete a contact you should click the **Delete This Contact** button.

You are asked if you wish to delete the record and on confirmation the record is deleted

* Note if a company only has one contact on file, the system will inform you of what to do in this case, as deleting is not possible until another contact has been added to file.

A Print Button is located just below the input fields which allows you to produce a report of selected company's contact details.

When the Print button is clicked you are given the option to review the report on screen or to send the output straight to disk in word processor format. (For later review)

EXIT

This is the screen for maintaining VAT Types and percentages.

You should select the VAT Type you require by use of a drop-down list.

You may then update the fields:

VAT Name

VAT Percentage

If changes are made to these fields the background will change to RED to indicate a change is being made against the original value in the field

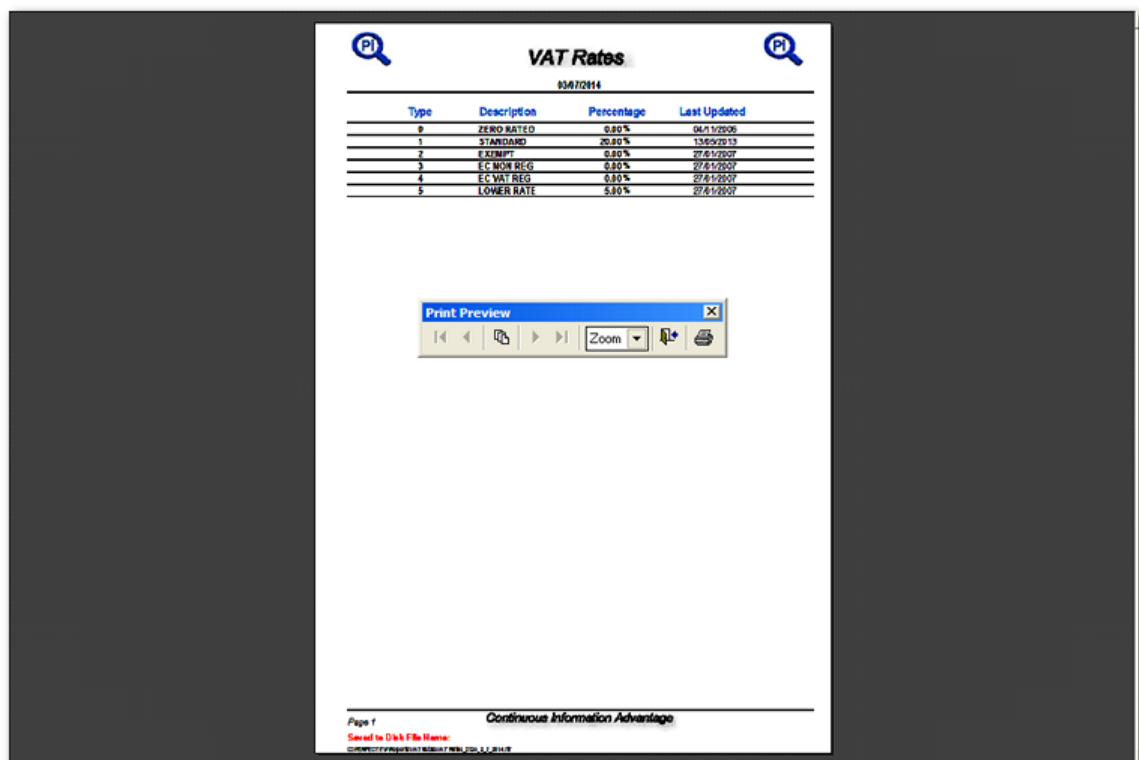

The date/time of the previous change to the record are also displayed.

When you have finished making the required changes you should press the Update key and the record will be updated and a message indicating success will be displayed.

A Print Button is located just below the input fields which allows you to produce a report of the VAT rates currently on file.

When the Print button is clicked you are given the option to review the report on screen or to send the output straight to disk in word processor format. (For later review)

An example of this report is below:

The screenshot displays a report titled "VAT Rates" with a date stamp "03/07/2014". The report contains a table with the following data:

Type	Description	Percentage	Last Updated
0	ZERO RATED	0.00%	06/11/2006
1	STANDARD	20.00%	13/09/2013
2	EXEMPT	0.00%	27/6/2007
3	EC MON REG	0.00%	27/6/2007
4	EC VAT REG	0.00%	27/6/2007
5	LOWER RATE	5.00%	27/6/2007

Below the table is a "Print Preview" window with navigation buttons (back, forward, search, zoom, etc.) and a close button. At the bottom of the report, it says "Page 1" and "Continuous Information Advantage".

A print preview button is displayed with each report reviewed on screen which allows you to produce a hardcopy of the report on your printer and to move around within the report.

At the foot of the report the location and name of the saved word processor file is displayed.

The location of the file on disk is also displayed in an informational message when you exit the report or when it has been saved to disk.

If you wish to add a new VAT Type you should click the Add New Type button.

Clicking the EXIT button returns you to the File Maintenance Menu

2.56 Maintain Training Course Details

The screenshot shows a web application window titled "Maintain Training Course Details". In the top left corner, there is a logo with the letters "Pi" and a magnifying glass. To its right, the text "Company & Main Contact" is followed by "ACME LTD", "HUGH", and "LAMPTON". The top right corner displays the date and time "03/07/2014 23:47:28". The main heading in the center is "Training Course Details". Below this, on the right, is the identifier "scn00067" and a timestamp "Previously updated on: 08/02/2014 17:50:05". A "Select Course" dropdown menu is set to "406". Below the menu, a black box contains the text "Subject COMPLIANCE" and "Cost per Attendee £2,000". Underneath this box are two status bars: a red one that reads "Indicates Change has been made" and a yellow one that reads "Indicates Error has been made". At the bottom right of the window are two buttons: a red "SAVE" button and a green "EXIT" button.

This option allows you to update the details of Training Courses.

You must first select the Course by use of a drop down menu. You may then update the **COST PER ATTENDEE** value.

If any changes are made the related background colour will change to **RED** to indicate that the original value has been changed.

If any errors are made the related background colour will change to **YELLOW** and an information message will appear detailing what the error is.

When the necessary changes have been made you should click the **SAVE** button.

There is a printer icon on screen and clicking this will produce a report of the Training courses available an example is shown below. The system also saves a copy of this report to disk in rtf format and this can be viewed by use of the Reports saved to disk function

Available Training Courses

Course Number	Course Subject	Cost Per Attendee	Last Updated
1	ACCOUNTING	\$900.00	08/02/2014

Continuous Information Advantage

03/07/2014

Saved to Disk File Name: C:\MSI\CTI\Images\del\Training\Course27\Training_Course27_3_7_2014.tif

Clicking th **EXIT** button returns you to the File Maintenance Menu

2.57 Add a New VAT (Purchase Tax) Type

This is the screen for adding a New VAT type.

You must enter information into the following fields:

VAT Type (Single number or Letter)

VAT NAME (10 Character Descriptive Name)

VAT Percentage

When you have completed entry you should click the **Add Type** button and the record is added and a message indicating success is displayed.

Clicking th **EXIT** button returns you to the Maintain VAT (Purchase Tax) Types screen

2.58 Maintain Currency Exchange Rates

This screen is used to maintain Foreign currency exchange rates against GBP and is only used within the multi company versions of Pi.

You must first select the currency abbreviation you wish to edit by use of a drop-down list:

You may then make changes to the following fields.

Country

Currency Sign (e.g. '£')

Exchange Rate to Pounds Sterling

2.59 Add a NEW Currency

The screenshot shows a window titled 'Add a NEW Currency' with a blue header bar. Inside the window, there is a 'Pi' logo in a magnifying glass icon on the left. The main title is 'Currency Exchange Rates' with a session ID 'scn00079' on the right. A central black box titled 'New Currency' contains four input fields: 'Base Currency', 'Country', 'Currency Sign', and 'Exchange Rate To £' (with '0.000' entered). Below this box is a yellow error message: 'Indicates Error has been made'. In the bottom right corner, there are two buttons: 'Add Currency' (red) and 'EXIT' (green).

This screen is for adding a new Currency

You must enter the required details in the following fields:

Currency Abbreviation (e.g. GBP)

Country

Currency Sign (e.g. ' £')

Exchange Rate to Pounds Sterling

When you have completed entry you should click the **Add Currency** button and the currency is added and a message indicating success is displayed.

If you wish to exit you should press the **EXIT** button and you will be returned to the Maintain Currency Exchange Rates screen

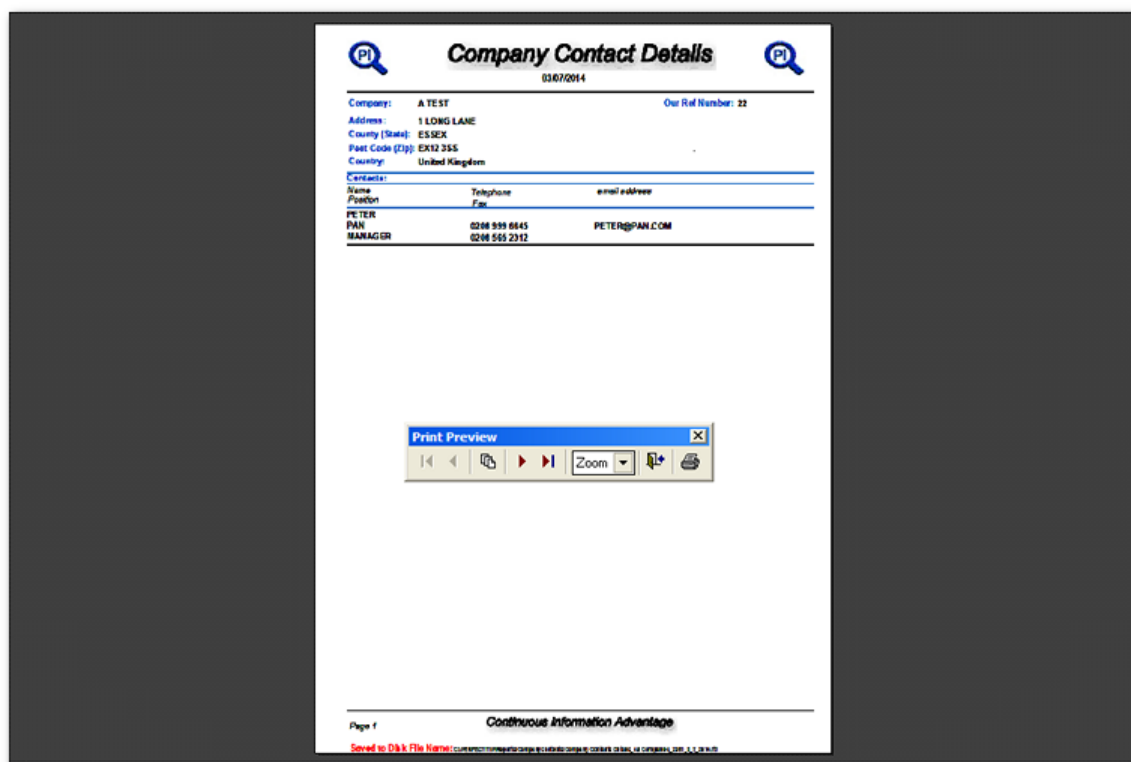

2.60 All Contact Details

All Contacts Details

When this option is selected you are given the option to review the report on screen or to send the output straight to disk in word processor format. (For later review)

The report contains all the Address and Contact details for all Companies.

An example of this report is below:

A print preview button is displayed with each report reviewed on screen which allows you to produce a hardcopy of the report on your printer and to move around within the report.

At the foot of the report the location and name of the saved word processor file is displayed.

The location of the file on disk is also displayed in an informational message when you exit the report or when it has been saved to disk.

On exiting the report the Contact Details Menu will be re-displayed.

2.61 Invoicing - Multi Company Only

Within the Multi Company version the system will produce an Invoice for the following transactions:

Strategy Report (Invoice is saved to disk in Strategy Full report + All Invoices directories)

Route Map Report (Invoice is saved to disk in Route Map Full report + All Invoices directories)

Project Plans Report (Invoice is saved to disk in Project Plans Full report + All Invoices directories)

Individual Project Plan Purchases (Invoice is saved to disk in Downloaded Project Plans + All Invoices directories)

If an error is made in terms of an attempt being made to update with a “blank question” the background of the question will turn **YELLOW** and an error message will appear. An opportunity to reset the question back to its previous content is offered.

Clicking th **EXIT** button returns you to the File Maintenance Menu

2.68 Replace Information Capability Questions

This option allows you to change your Information Capability questions to the latest version of these questions for the **currently selected company**.

On selection of this option from the File Maintenance Sub Menu the following message is displayed:

This alerts you that if you proceed your Information Capability Questions will be updated to the latest version.

If you proceed your questions are updated and the following message is displayed:

This message informs you that the update is complete and is followed by a further message:

This informs you that you must now complete the Information Capability questionnaire again for the **currently selected company**. This is essential as the questionnaire answers have all been reset due to the questions now being different to the original, so you must complete the questionnaire again.

You are then returned to the File Maintenance Menu

2.69 Purchase Application Project Plans

Number	Application Area	Project Type	Plan Cost
1 13	BUSINESS MODELLING	Greenfield	£300.00
2 26	CRM	Expansion	£300.00
3			£0.00
4			£0.00
5			£0.00
6			£0.00
7			£0.00
8			£0.00
9			£0.00
10			£0.00

Here you can purchase the Application Project Plans that Pi has **recommended** need to be actioned. The Projects can be selected by use of a drop down selection list. When Selected the Application Area, Project Type and Cost for buying the Plan are displayed. When selection is complete you should click the **BUY** button. An invoice is displayed and saved to disk for the selected project plans and summary financial details are passed to the Account Options Menu file. To return to the Project Plans Menu without purchasing you should click the **EXIT** button.

In the Standalone PC Single Company Version the Invoice is replaced by a Purchase Order

2.72 Add New Software

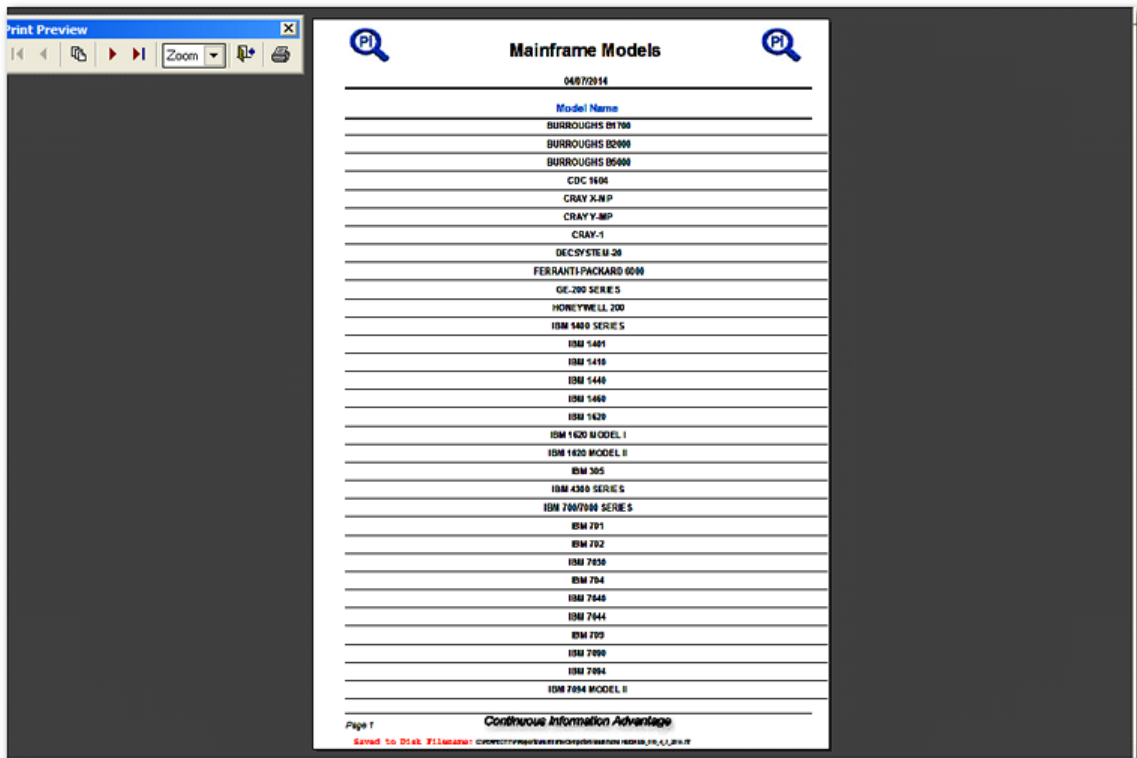

Here you may enter details of new software and/or Applications. You should first select the Application Area related to the new software by use of a drop down selection list. You should then enter the Product Name and Product Vendor. If errors are made, the background of the offending input(s) will turn Yellow to indicate an error. If duplicate product entry is attempted an error message will appear indicating this error. Clicking **EXIT** will return you to the Technology Menu.

2.73 Add New Mainframe

The screenshot shows a window titled "Add New Mainframe Computer". In the top-left corner, there is a "Pi" logo and a "Company & Main Contact" section listing "ACME LTD", "HUGH", and "LAMPTON". The top-right corner displays the date and time "04/07/2014 00:10:11" and a session ID "scn00081". The main heading is "New Mainframe Computer". Below this, there is a text input field labeled "Mainframe Name". The input field has a yellow background, and a yellow tooltip message "Indicates an Error has been made" is visible below it. A printer icon is located below the input field. In the bottom-right corner, there are two buttons: a red "ADD" button and a green "EXIT" button.

Here you may enter details of new Mainframe hardware. You should enter the name of the Mainframe hardware. If errors are made, the background of the input will turn Yellow to indicate an error. If a duplicate (existing) Mainframe Name entry is attempted an error message will appear indicating this error. Clicking **EXIT** will return you to the Technology Menu.

Below the questions is a Print Button which allows you to print a list of all the models available. Your reports are also SAVED to Disk in Word Processor Universal RTF Format and can be reviewed at anytime see Reports saved to disk

2.74 Add New Mini Computer

The screenshot shows a software window titled "Add New Mini Computer". The window has a blue title bar and a sidebar on the left. The sidebar contains a "Pi" logo, a "Company & Main Contact" section with details for "ACME LTD", "HUGH", and "LAMPTON", and a small red first aid icon. The main content area is titled "New Mini Computer" and contains a text input field labeled "Mini Computer Name". Below the input field is a yellow error message box that says "Indicates an Error has been made". At the bottom right of the window are two buttons: a red "ADD" button and a green "EXIT" button. The window also displays a date and time "04/07/2014 00:11:20" and a session ID "scn00082" in the top right corner.

Here you may enter details of new Mini computer hardware. You should enter the name of the Mini Computer. If errors are made, the background of the input will turn Yellow to indicate an error. If a duplicate (existing) Mini Computer Name entry is attempted an error message will appear indicating this error. Clicking **EXIT** will return you to the Technology Menu.

2.75 Add New Operating System

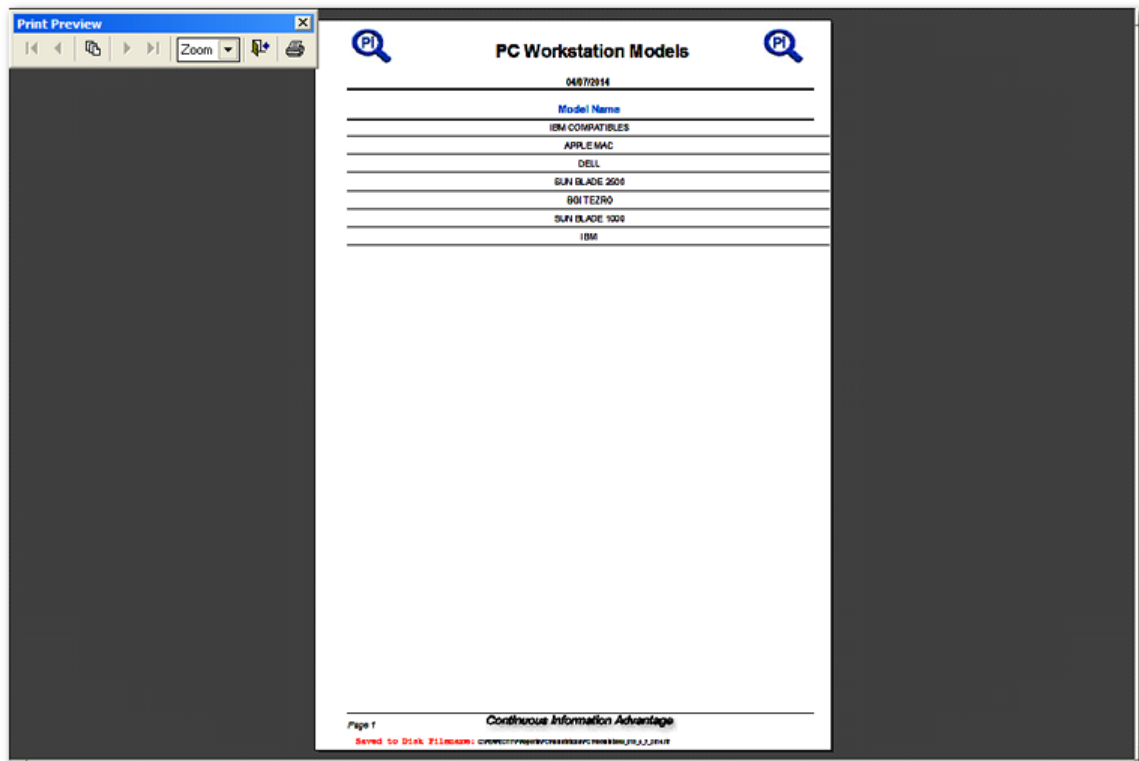

The screenshot shows a software window titled "Add New Operating System". The window's header includes a "Pi" logo, company information ("Company & Main Contact", "ACME LTD", "HUGH", "LAMPTON"), a timestamp ("04/07/2014 00:12:22"), and a session ID ("scn00083"). The main content area is titled "New Operating System" and features a text input field labeled "Operating System Name". Below this field is a yellow rectangular box containing the text "Indicates an Error has been made". At the bottom right of the window are two buttons: a red "ADD" button and a green "EXIT" button. A printer icon is located in the center of the main area.

Here you may enter details of new Operating Systems. You should enter the name of the Operating System. If errors are made, the background of the input will turn Yellow to indicate an error. If a duplicate (existing) Operating System Name entry is attempted an error message will appear indicating this error. Clicking **EXIT** will return you to the Technology Menu.

2.76 Add New PC Workstations

Here you may enter details of new PC Workstations. You should enter the name of the PC Workstation. If errors are made, the background of the input will turn Yellow to indicate an error. If a duplicate (existing) PC Workstation Name entry is attempted an error message will appear indicating this error. Clicking **EXIT** will return you to the Technology Menu.

Below the questions is a Print Button which allows you to print a list of all the models available. Your reports are also SAVED to Disk in Word Processor Universal RTF Format and can be reviewed at anytime see Reports saved to disk

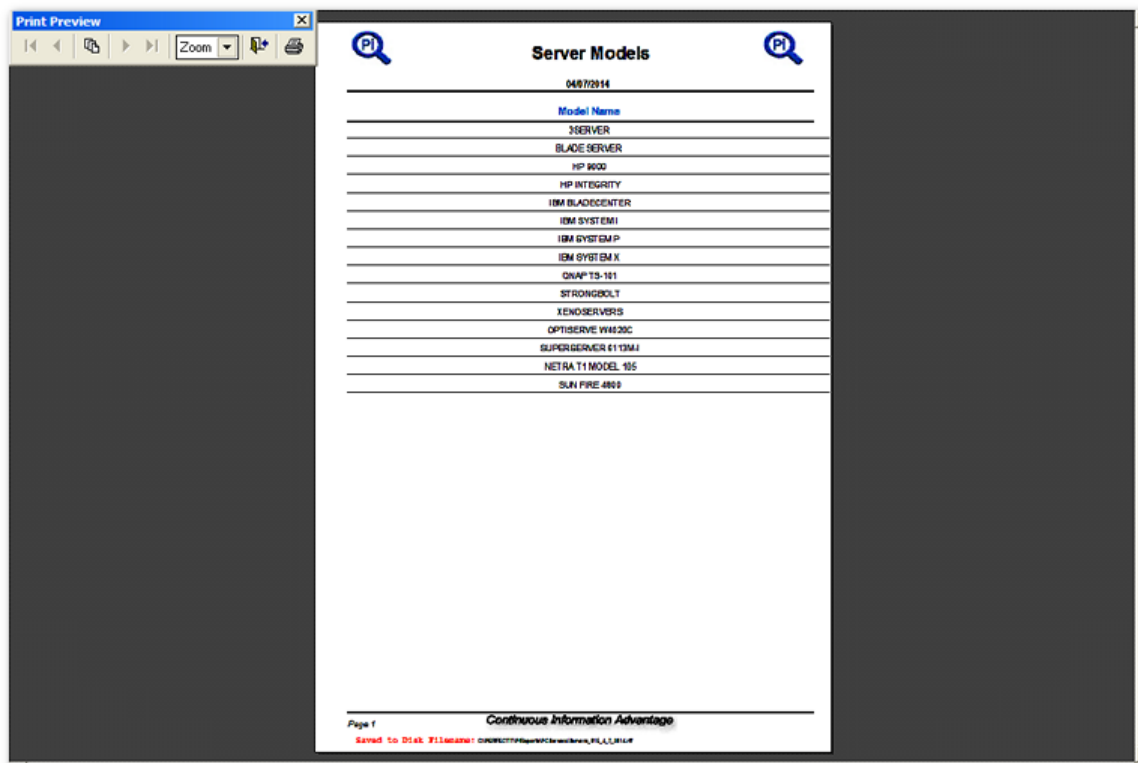

2.77 Add New Server

The screenshot shows a software window titled "Add New Servers". In the top-left corner, there is a logo with the letter "Pi" and a magnifying glass icon. To its right, under the heading "Company & Main Contact", are the details: "ACME LTD", "HUGH", and "LAMPTON". In the top-right corner, the date and time "04/07/2014 00:14:43" and a user ID "scn00085" are displayed. The main area of the window is titled "New Server" and contains a large black rectangular box with the text "Server Name" above a white input field. Below the input field, a yellow rectangular box contains the text "Indicates an Error has been made". Underneath this message is a small icon of a server rack. In the bottom-right corner of the window, there are two buttons: a red "ADD" button and a green "EXIT" button.

Here you may enter details of new Server hardware. You should enter the name of the Server Hardware. If errors are made, the background of the input will turn Yellow to indicate an error. If a duplicate (existing) Server Name entry is attempted an error message will appear indicating this error. Clicking **EXIT** will return you to the Technology Menu.

Below the questions is a Print Button which allows you to print a list of all the models available. Your reports are also SAVED to Disk in Word Processor Universal RTF Format and can be reviewed at anytime see Reports saved to disk

2.78 Add New PC Tablet

The screenshot shows a software window titled "Add New PC Tablets". The window has a blue title bar and a menu bar with a "Pi" logo and a magnifying glass icon. The main area is titled "New PC Tablet" and contains a text input field labeled "PC Tablet Name". Below the input field is a yellow error message box that says "Indicates an Error has been made". At the bottom right are two buttons: "ADD" (red) and "EXIT" (green). The top right corner shows the date and time "04/07/2014 00:15:56" and a user ID "scn00117". The left sidebar shows "Company & Main Contact" with details: "ACME LTD", "HUGH", and "LAMPTON".

Here you may enter details of new PC Tablet models. You should enter the name of the PC Tablet Model. If errors are made, the background of the input will turn Yellow to indicate an error. If a duplicate (existing) PC Tablet model Name entry is attempted an error message will appear indicating this error. Clicking **EXIT** will return you to the Technology Menu.

Below the questions is a Print Button which allows you to print a list of all the models available. Your reports are also SAVED to Disk in Word Processor Universal RTF Format and can be reviewed at anytime see Reports saved to disk

2.83 Financial Details - Invoices

The screenshot shows a software window titled "Invoice Report" with a blue header bar. Inside the window, the title "Financial Details" is centered at the top. Below it, the text "Invoices Report" and "ACME LTD" are displayed. A date selection interface is visible, showing "Select Dates" with a date range from "04/07/2014" to "04/07/2014". A calendar for July 2014 is open, showing the days of the week and the dates. The date "04/07/2014" is highlighted. Below the calendar, there is a checkbox labeled "or tick here" and a checkbox labeled "for all". At the bottom right of the window, there are two buttons: "Generate" (red) and "EXIT" (green).

Here you can select to generate a report of Invoices for the selected User (company). Selection can be made either by selecting a date range by use of interactive calendars on screen or ALL invoices can be selected by ticking the box indicated on screen.

You should then click the GENERATE button and an Invoice Summary Report is produced on screen:

Clicking EXIT returns you to the Financial Details Main screen

2.84 Financial Details - Payments

The screenshot shows a software window titled "Payments Report" with a blue header bar. Inside the window, the title "Financial Details" is centered at the top. Below it, the company name "ACME LTD" is displayed in yellow. The main area contains a "Payments Report" section with a black background. This section includes a "Select Dates" label, two date input fields showing "04/07/2014" and "to 04/07/2014", and a checkbox labeled "or tick here" followed by "for all". A calendar for July 2014 is open, showing the 4th of July selected. At the bottom right of the window, there are two buttons: "Generate" (red) and "EXIT" (green).

Here you can select to generate a report of Payments received from the selected User (company). Selection can be made either by selecting a date range by use of interactive calendars on screen or ALL Payments can be selected by ticking the box indicated on screen.

You should then click the **GENERATE** button and the following Payment Summary Report is produced on screen:

EXIT

This screen is used to update the Salaries and Daily contract rates applicable to Project Team Members. This information is used to accurately forecast the cost of projects. For each role a Salary figure, which is the basic salary received by permanent staff performing this job within the organisation and a Daily Rate which the organisation pays for external resources fulfilling these roles on projects, should be input.

When input has been completed the **SAVE** button should be clicked to update the record.

There is a printer icon on screen and clicking this will produce a Report of Salaries and Daily Rates of Project Resources, viz; personnel. An example is shown below. This report is also saved to disk and can be reviewed using the Reports saved to disk function.

Role	Annual Salary	External Daily Rate

2.91 Data File BACKUP & RESTORE

When you wish to backup or restore the data files of the system , you should click the following button:

The following screen will appear:

Here the you may backup or restore the Database files of Pi for security purposes. The location of the latest backup you have taken is displayed on screen.

Clicking the **Previous Screen** button returns you to the previous menu from which you called the backup / restore procedure.

BACKUP

When selected you will first receive a message prompt asking you if you wish to continue with the Backup. If you reply “No” a message appears informing you that you have abandoned the backup. If you reply “Yes” the following screen appears:

Here you may select the location where you want the data files saved from a directory selection list. When you have selected the directory/folder you should click **OK** and the backup will be created. A message will then appear on screen indicating a successful backup. **It is recommended that you backup to an external device e.g. CD or DVD drive in case of problems with your PC or server.**

RESTORE

This will restore the latest backup of your data files that you have taken.

Note: Before attempting to restore data files please ensure that if you made your last data backup to an external drive e.g. a CD or DVD, that the correct CD/DVD is loaded in the CD/DVD drive before trying to restore the data. If you are keeping sequential backups please ensure that you place the CD/DVD you wish to restore in the CD/DVD Drive.

When selected you will first receive a message prompting you if you wish to continue with the Restore. If you reply "No" a message appears informing you that you have abandoned the restore. If you reply "Yes" the latest data files are restored. A message appears on screen indicating a successful restore.

You will then be logged out and must log in again as this ensures data integrity and should sign in again.

2.92 Compare Companies

Selection of this option from the Add-Ons menu allows you to compare the relative Business Effectiveness across all Application Areas of up to 10 Companies simultaneously.

The screenshot displays a software window titled "Compare Companies Selection Screen". The window has a blue title bar and a white background. In the top left corner, there is a logo with the letter "Pi" inside a blue circle. In the top right corner, the date and time "04/07/2014 00:57:06" are displayed. Below the title bar, the text "Compare Companies" is centered. To the right of this text, the identifier "scn00057" is visible. The main content area contains a form with the following elements:

- A label "Select number of Companies to be compared 2-10" followed by a dropdown menu showing the number "2".
- A label "Select 1st Company to compare" followed by a dropdown menu showing "ACME LTD".
- A label "Select 2nd Company to compare" followed by a dropdown menu showing "GLOBAL INDUSTRIES".

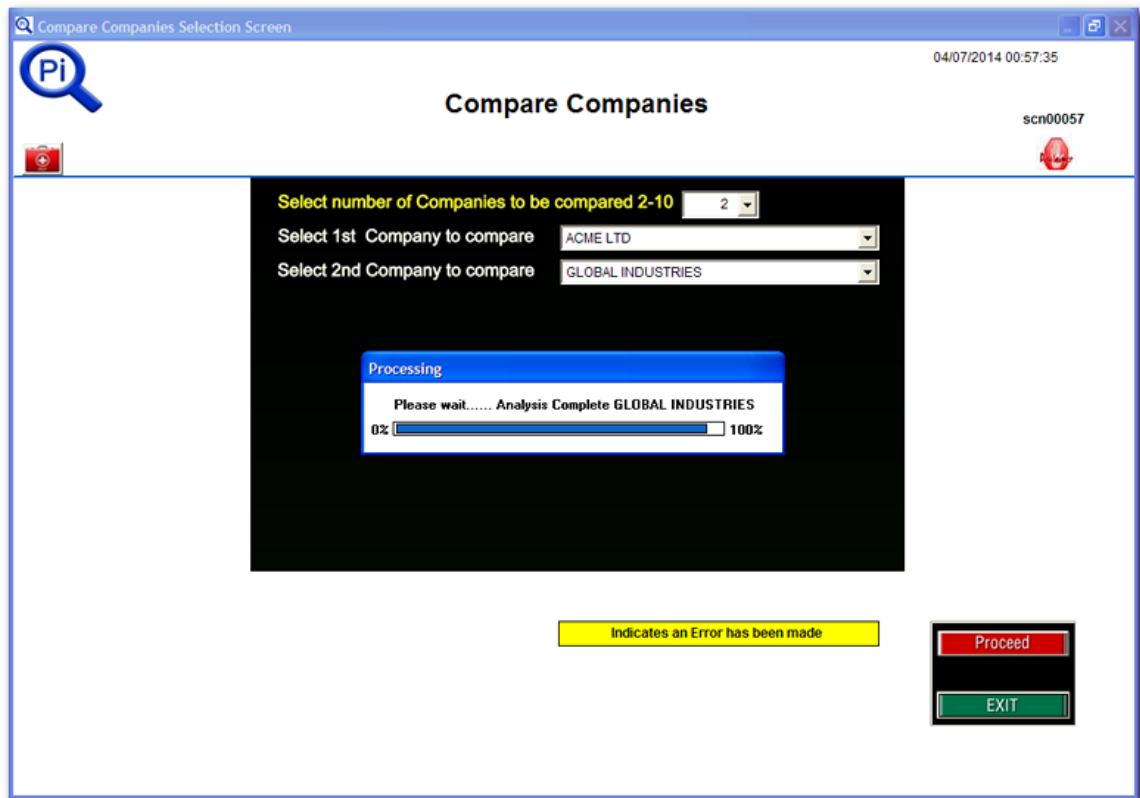

Below the form, there is a yellow rectangular box with the text "Indicates an Error has been made". To the right of this box, there are two buttons: a red button labeled "Proceed" and a green button labeled "EXIT".

On this screen you must select the number of Companies to be compared by using the drop down selection list provided.

The system will display further drop down selection lists to select the companies to be compared.

Clicking **EXIT** returns you to the ADD-ONS menu

When selection has been made you should click the **Proceed** key to start the analysis. A progress bar appears indicating the state of analysis reached.

When the analysis is complete the following report, including summary page, is produced on screen, where it can be viewed and/or printed. The report is also saved to disk in Word Processor format.

2.93 Create Blank Questionnaires

In order to facilitate their manual completion by individuals or by interview the blank questionnaires of the system can be generated and printed out in hardcopy.

On selection of this option from the Reference File Menu, Pi will create a full set of Blank Questionnaires as follows:

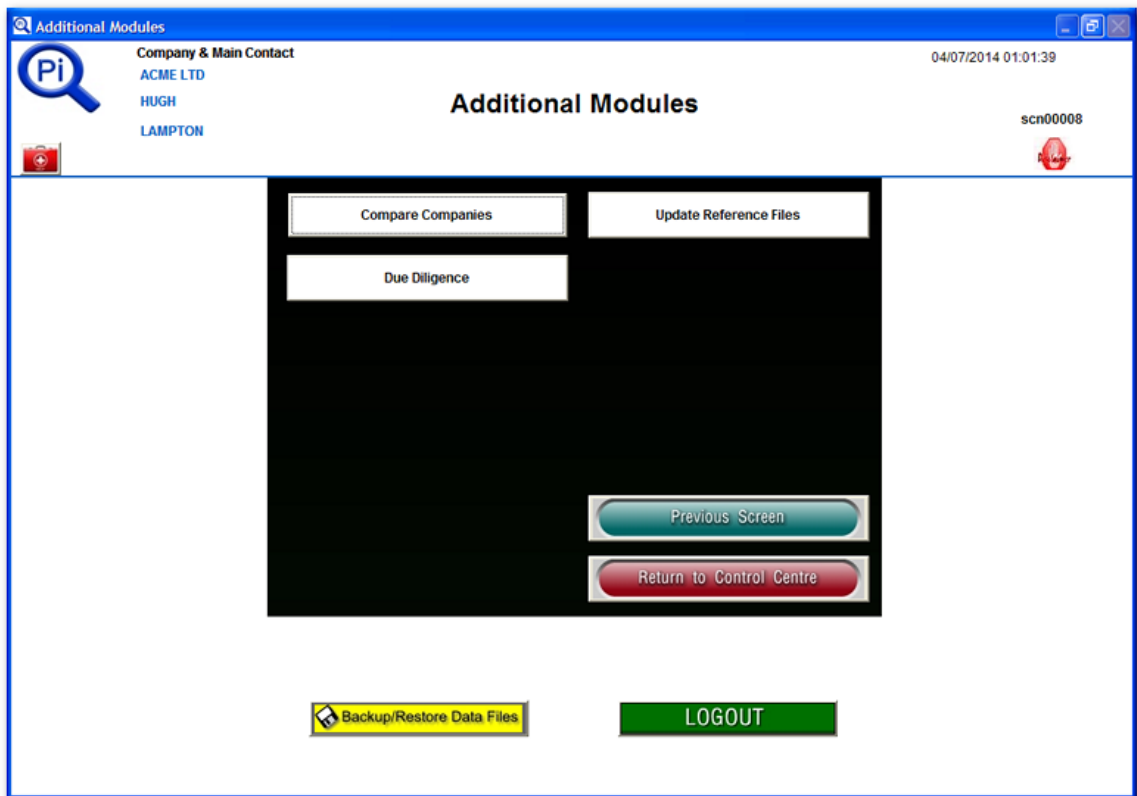

- Information Capability Questionnaire
- Business Process Questionnaire
- Goals and Objectives Questionnaire
- Performance Questionnaire
- Applications and Software Questionnaire
- Data Integration Questionnaire
- Hardware Questionnaire
- People Questionnaire

These questionnaires are saved in word processor format in the default "BlankQuestionnaires" directory on the local disk where the software is installed.

The questionnaires can be accessed via the "Locations of Reports on Disk" option of the Account Options Menu, from where they can be printed out.

Reference File Maintenance

2.94 Additional Modules

This sub-menu allows you to access any additional modules that have been purchased

For details on each option click the appropriate button below:-

Compare Companies - Accesses the Compare Multi-Companies Module

Due Diligence - Accesses the Due Diligence Questionnaire Module

Update Reference Files - Accesses the File Reference Module

Previous Screen returns you to the Account Options Sub Menu

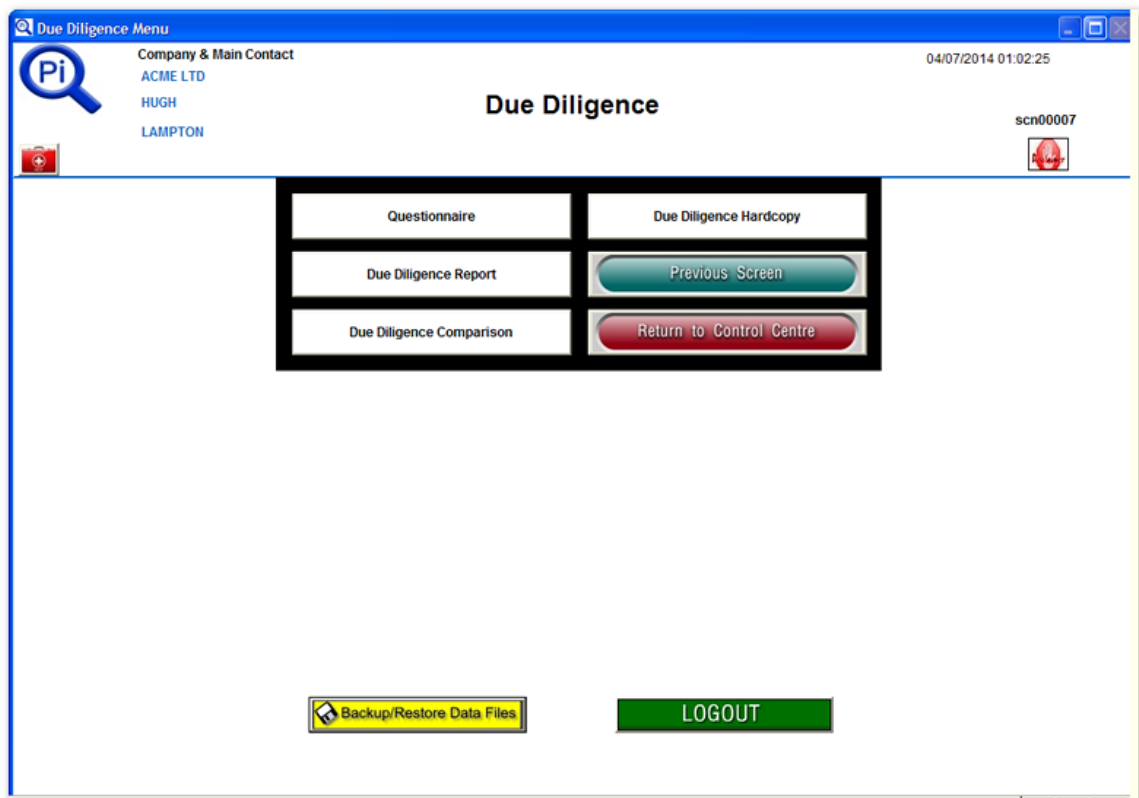

Account Options Menu How Do I - Account Options Menu

Backup / Restore Data Files

This gives access to Data File Security options

Pressing the **LOGOUT** button quits from the application

2.95 Due Diligence

Here you can access the Due Diligence options:

Due Diligence - Allows access to the Due Diligence Questionnaire

Due Diligence Report - Produces the Due Diligence Analysis report

Due Diligence Comparison - Accesses the Compare Companies (including Due Diligence) Selection Screen

Due Diligence Hardcopy- Allows a Blank Hardcopy Due Diligence Questionnaire to be printed (saved to disk)

Previous Screen returns you to the ADD-ONS menu

Backup / Restore Data Files

This gives access to Data File Security options

Pressing the **LOGOUT** button quits from the application

2.96 Due Diligence Questionnaire

Selection of this option allows you to enter the results from Due Diligence exercises.

 A screenshot of a software window titled "Due Diligence Screen 1 - Questions 1 - 13". The window has a blue header bar with a "Pi" logo on the left. Below the logo, it says "Company & Main Contact", "ACME LTD", "HUGH", and "LAMPTON". On the right side of the header, it shows the date "04/07/2014 01:03:28" and the ID "scn00058". Below the header, it says "Previously updated on: 14/06/2014 15:48:27". The main area is divided into three sections. On the left, under "Other Parts of Questionnaire to Answer", there are buttons for "Questions 14-26", "Questions 27-39", "Questions 40-52", "Questions 53-65", "Questions 66-78", "Questions 79-91", and "Questions 92-104". Below these is a "Logical Next" button. In the center, there is a list of 13 questions, each with a red circular icon containing a number (001 to 013). To the right of each question is a checkbox. On the right side of the screen, there is a box that says "Audited and Satisfactory So Far 95%". Below this are two buttons: "SAVE" (red) and "EXIT" (green).

This is the first screen of the 8 available and presents you with the first 13 questions to be answered. The first 13 Due Diligence Audit Items are presented and besides each is a check box. For each you must indicate if the item has been audited and that the outcome of that audit is satisfactory, by clicking (placing tick) in the related check box. For those Due Diligence Audit Items that have not been audited or for which the outcome is not satisfactory the check box should be left blank.

Note: If an item is not relevant to the audit, a tick should also be placed in the check box.

Half way down the right hand side of the screen is a percentage indicator of the progress reached on the overall Due Diligence audit exercise.

Once you have completed the answers for this screen you should proceed through the questionnaire to answer all 104 questions. Navigation is achieved by clicking the navigation buttons of the left hand side of each screen which allow you to proceed logically through the

questionnaire or to jump around within it.

Below the navigation buttons there are two Print Icon buttons which will allow you to either review a report of the current screen's questions and answers or the full audit (all questions) onscreen and /or produce a hardcopy of them. An example is below:

Your reports are also SAVED to Disk in Word Processor Universal RTF Format and can be reviewed at anytime see Reports saved to disk

Audit Item	OK ?
1 The Company's Articles of Incorporation, and all amendments thereto.	N
2 The Company's Bylaws, and all amendments thereto.	N

2.99 Blank Due Diligence Questionnaire

On selection of this option from the Due Diligence Sub Menu, Pi will create a Blank Due Diligence Questionnaire. This can be used for interview/completion purposes.

This questionnaire is saved in word processor format in the default "BlankQuestionnaires" directory on the local disk where the software is installed.

The questionnaire can be accessed via the Reports saved to disk option of the Account Options Menu, from where it can be printed.

Due Diligence

2.100 How Do I - Control Centre

Overview

In simple terms Pi is an Application that asks you simple questions about the various areas of your company and based on your answers recommends how you can improve your overall business performance through better information.

Important Note

It is essential that you complete ALL of the questionnaires within the system before running any of the output options

These are:

IC YES NO QUESTIONS

BUSINESS PROCESS QUESTIONS

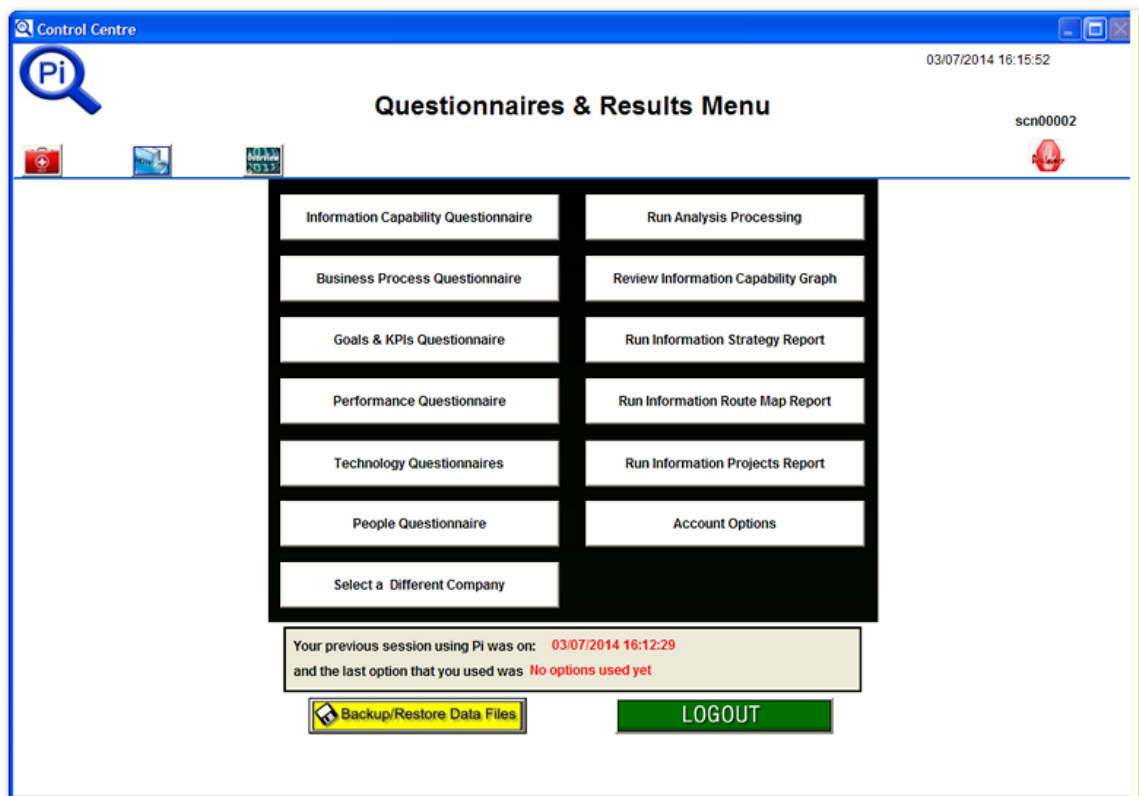

GOALS & OBJECTIVES QUESTIONS

PERFORMANCE QUESTIONS

TECHNOLOGY QUESTIONS (Applications/Software, Data Integration & Hardware)

PEOPLE QUESTIONS

Once you have signed in to the system you will arrive at the Control Centre

The Control Centre is the "Main Menu" of the system. Clicking on the buttons displayed will take you to the appropriate input screen, a further sub-menu or will generate output.

For details on each option click the appropriate link below:-

How Do I - Complete the IC Questionnaire

How Do I - Business Process Menu

How Do I - Goals & Objectives Menu

How Do I - Performance Menu

How Do I - Technology Menu

How Do I - People Questionnaire

Analysis This will run analysis for the currently selected company, this will re-select all of the Master questionnaires

Select a Company This will allow you to select a company to work on (Multi-Company version only)

How Do I - IC Results / Graph This will produce Information Capability Graph for the currently selected company

How Do I - Strategy Results This will run the Information Strategy Report for the currently selected company (To screen and disk or just to disk)

How Do I - Route Map Results This will run the Route Map Report for the currently selected company (To screen and disk or just to disk)

How Do I - Projects Results This will run the Projects Report for the currently selected company (To screen and disk or just to disk)

How Do I - Account Options Menu This gives access to Account Details

LICENCE CODE If this button is visible you need to enter your licence code - Until this is done, the options available to you will be limited. (Licence code must be entered within a set number of days or software will cease to function)

Backup / Restore data files This will allow you to backup or restore all the data files of the application

Pressing the **LOGOUT** button quits from the application

2.101 How Do I - Complete the IC Questionnaire

The Information Capability (IC) Questionnaire is a series of questions designed to gauge your company's basic abilities in terms of collecting and using information.

The questionnaire is split into 6 sections which deal with:

IT Architecture

Finance

Marketing

Operations

Sales

People

Each section consists of 10 questions.

When you have finished entering your answers for this section, you may **SAVE** them by either clicking on the **SAVE** button at the bottom of the screen on the right-hand side, or by clicking one of the 5 navigational buttons in the block on the left hand side, labelled "Other Parts of Questionnaire to Answer". Clicking one of these navigational buttons will take you to the requested section of the questionnaire.

All the sections of the questionnaire work in exactly the same manner. Although guidance is given in each section as to the next logical section to complete, you can jump around the sections in any order that you like.

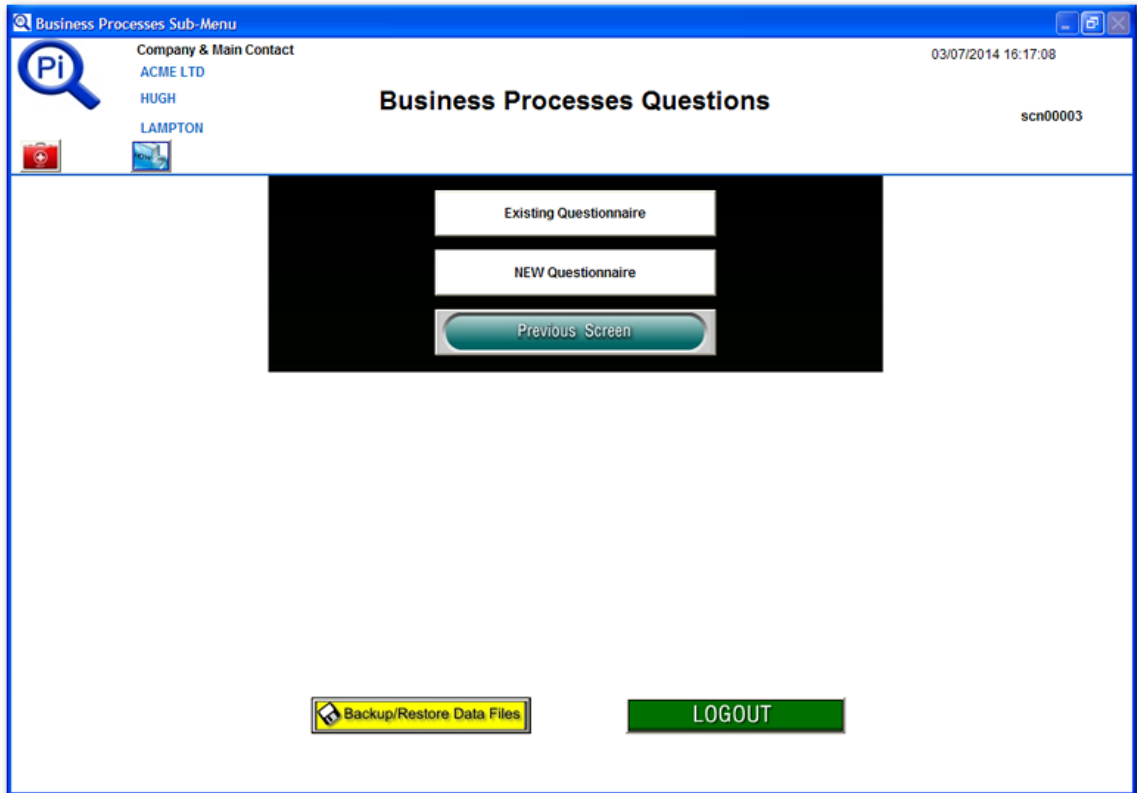

When you have completed work on the IC questionnaire remember to click the **SAVE** button to save your answers to the current section before exiting. When you have done this click the **EXIT** button and you will be returned to the Control Centre.

How Do I - Control Centre

2.102 How Do I - Business Process Menu

The Business Process Menu is used to either select an existing Business Process questionnaire or to create a new one.

For reporting/analysis purposes the "master" Business Process questionnaire is always used, but you may create additional questionnaires to run "what-if" scenarios in terms of the "Information Capability" graph function.

This menu presents you with 3 choices : *click the buttons below to see their functions.*

Existing Questionnaire New Questionnaire Previous Screen

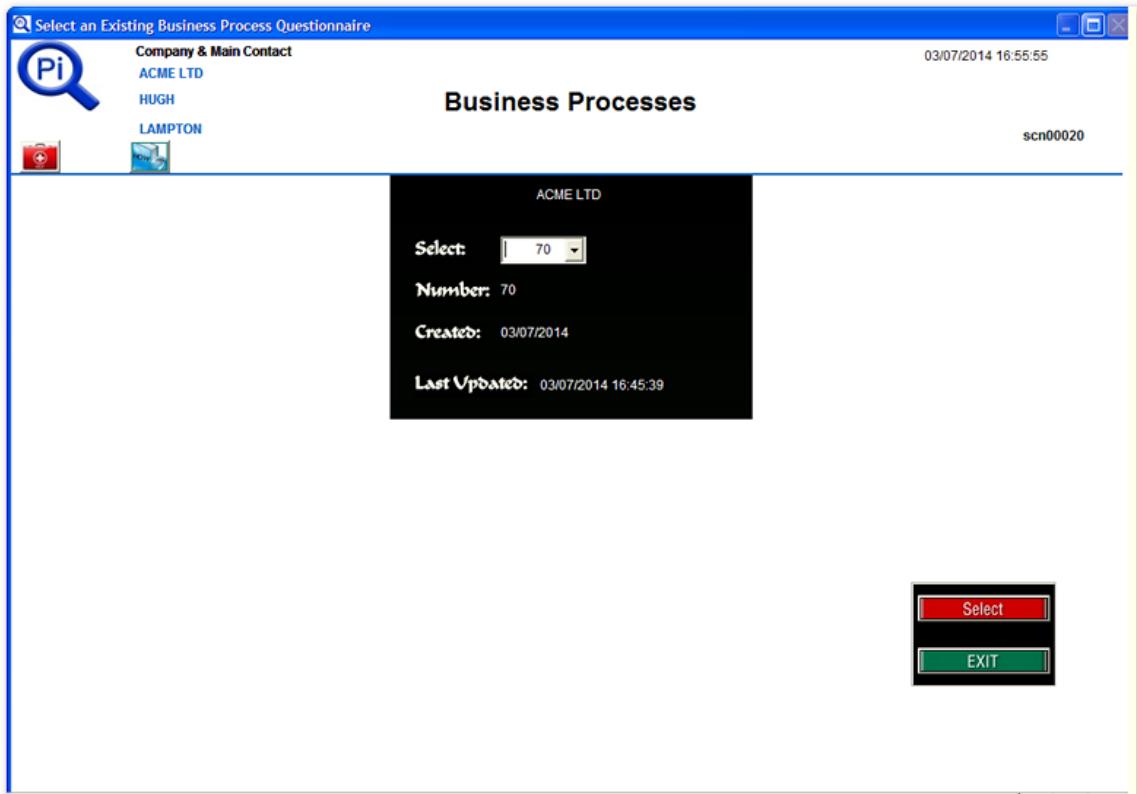

Backup / Restore data files This will allow you to backup or restore all the data files of the application

Pressing the **LOGOUT** button quits from the application

2.103 How Do I - Existing BP Questionnaire

Here you can select one of the Business Process questionnaires that you have created. Selection is made by using the drop down selection box. This is scrollable. There is one "master" Business Process questionnaire, this represents the actual position of the company in terms of business processes and is always used for analysis and reports. However, for the purposes of running "what-if" scenarios in respect of the Information Capability graph function, you may have several versions of this questionnaire. If you wish to run a "what-if" Information Capability graph using a specific Business Process questionnaire, you should select it using this screen, update it (if necessary) when you have reached the update screen (see below) and save it using the relevant SAVE button. This version will be used for all Information Capability Graphs, until you either run the Control Centre "ANALYSIS" function or if you run any of the reporting functions of the system, in which case The "master" Business Process questionnaire will be re-selected automatically.

Using the Existing Business Process Questionnaire

If you select the "master" version of this questionnaire it will be indicated by the word master appearing on this screen. On selection of a questionnaire the date the questionnaire was created and the last date/time it was updated will also appear.

Once you have selected the Business Process questionnaire that you wish to work on, you should click the **Select** button

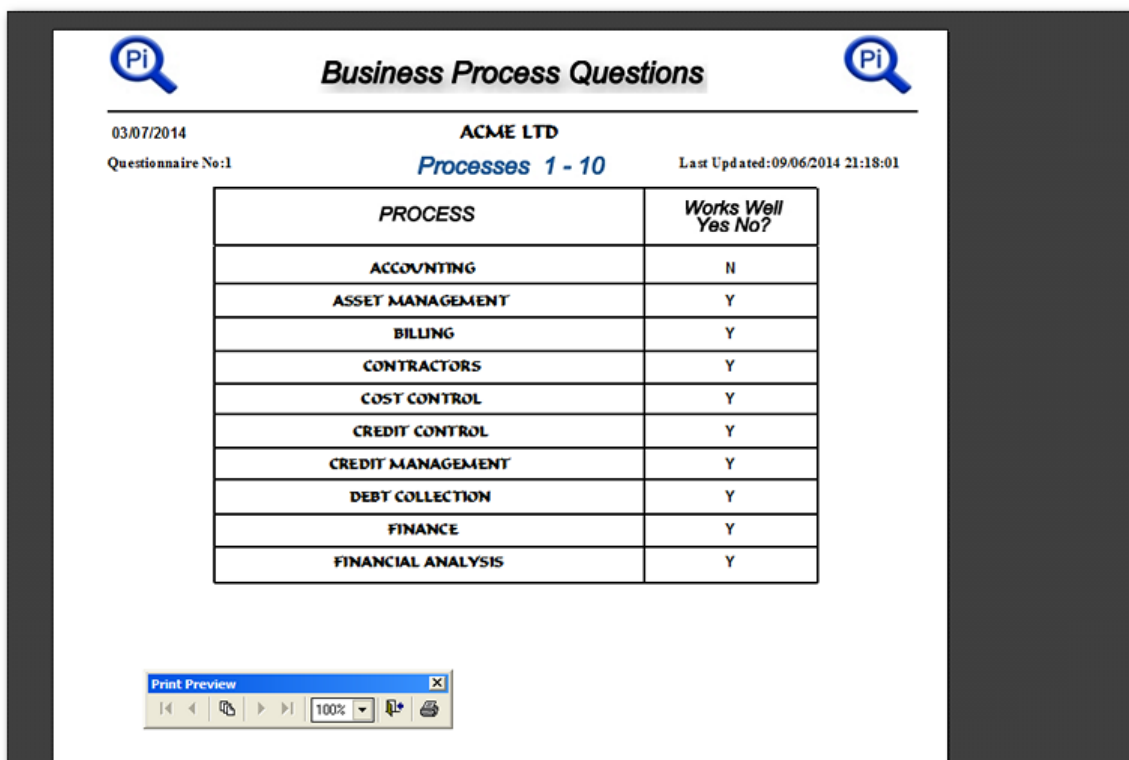

The following screen will appear:

Question Number	Business Process	Tick Box
001	ACCOUNTING	<input type="checkbox"/>
002	ASSET MANAGEMENT	<input checked="" type="checkbox"/>
003	BILLING	<input checked="" type="checkbox"/>
004	CONTRACTORS	<input checked="" type="checkbox"/>
005	COST CONTROL	<input checked="" type="checkbox"/>
006	CREDIT CONTROL	<input checked="" type="checkbox"/>
007	CREDIT MANAGEMENT	<input checked="" type="checkbox"/>
008	DEBT COLLECTION	<input checked="" type="checkbox"/>
009	FINANCE	<input checked="" type="checkbox"/>
010	FINANCIAL ANALYSIS	<input checked="" type="checkbox"/>

At the top of the screen the questionnaire number will appear. If you are editing the "master" Business Process questionnaire this will also be indicated.

There are a total of 100 numbered questions to answer, split into 10 sections. Besides each number is the Business Process name, to the right of this is a tick box. You must indicate whether each process exists and works well by clicking the left mouse button whilst the cursor is over the relevant tick box(es). If a process(es) does not exist or does not work well, the relevant tick box(es) should be left blank. If you wish to remove a tick from a box simply place the cursor over the relevant tick box and click the left mouse button.

If you wish to review and/or print your answers you should click the printer button at the bottom of the screen on the left-hand side, labelled "**Print these Answers**". If you wish to review and/or print the complete questionnaire (all sections) click the printer button at the bottom on the right-hand side, labelled "**Print All Sections**". In both cases the report will be sent to the screen for review, where you can print a hardcopy, by use of the Print preview bar displayed.

2.106 How Do I - Existing Goals Questionnaire

Here you can select one of the Goals & Objectives questionnaires that you have created. Selection is made by using the drop down selection box. This is scrollable. There is one "master" Goals & Objectives questionnaire, this represents the actual position of the company in terms of Goals & Objectives and is always used for analysis and reports. However, for the purposes of running "what-if" scenarios in respect of the Information Capability graph function, you may have several versions of this questionnaire. If you wish to run a "what-if" Information Capability graph using a specific Goals & Objectives questionnaire, you should select it using this screen, update it (if necessary) when you have reached the update screen (see below) and save it using the relevant SAVE button. This version will be used for all Information Capability Graphs, until you either run the Control Centre "ANALYSIS" function or if you run any of the reporting functions of the system, in which case The "master" Goals & Objectives questionnaire will be re-selected automatically.

Using the Existing Goals & Objectives Questionnaire

If you select the "master" version of this questionnaire it will be indicated by the word master appearing on this screen. On selection of a questionnaire the date the questionnaire was created and the last date/time it was updated will also appear.

Once you have selected the Goals & Objectives questionnaire that you wish to work on, you should click the **Select** button

The following screen will appear:

?	OBJECTIVES	GOAL	KPI	RANK
001	Increase Market Share	<input type="checkbox"/>	<input checked="" type="checkbox"/>	4
002	Increase Sales	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	1
003	Reduce Costs	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	2
004	Improve Profits	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	3
005	Increase Customer Satisfaction	<input checked="" type="checkbox"/>	<input type="checkbox"/>	6
006	Improve Staff Productivity	<input checked="" type="checkbox"/>	<input type="checkbox"/>	7
007	Attract High Calibre Staff	<input checked="" type="checkbox"/>	<input type="checkbox"/>	8
008	Make Better Use Of Information	<input checked="" type="checkbox"/>	<input type="checkbox"/>	9
009	Acquire Other Companies	<input type="checkbox"/>	<input type="checkbox"/>	10
010	Grow Organically	<input type="checkbox"/>	<input checked="" type="checkbox"/>	11

At the top of the screen the questionnaire number will appear. If you are editing the "master" Goals & Objectives questionnaire this will also be indicated.

There are a total of 20 numbered questions to answer, split into 2 sections. Besides each number is the Objective name, to the right of this there are two tick boxes and a scrollable selection box. You must indicate whether each objective is a Business Goal and/or a KPI (Key Performance Indicator) and the Ranking (1-20) in terms of importance to the Business. To indicate a positive response for the tick boxes click the left mouse button whilst the cursor is over the relevant tick box(es). For the scrollable selection box simply scroll the box to select the appropriate ranking. If you wish to remove a tick from a box simply place the cursor over the relevant tick box and click the left mouse button.

If you wish to review and/or print your answers you should click the printer button at the bottom of the screen on the left-hand side, labelled "**Print these Answers**". The report will be sent to the screen for review, where you can print a hardcopy, by use of the Print preview bar displayed.

Page 1 Continuous Information Advantage

Screened to: 01/04/2014 11:52:48

When you have finished entering your answers for this section, you may **SAVE** them by either clicking on the **SAVE** button at the bottom of the screen on the right-hand side, or by clicking the navigational button on the left hand side, labelled "Other Parts of Questionnaire to Answer". Clicking the navigational button will take you to the requested section of the questionnaire. All the sections of the questionnaire work in exactly the same manner.

When you have completed work on the Goals & Objectives questionnaire remember to click the **SAVE** button to save your answers to the current section before exiting. When you have done this click the **EXIT** button and you will be returned to the Goals & Objectives menu.

Return to the Goals and Objectives Menu

[****]

2.107 How Do I - NEW Goals Questionnaire

*NOTE There is one "master" Goals & Objectives questionnaire; this represents the actual position of the company in terms of Goals & Objectives and is always used for analysis and reports. However, for the purposes of running "what-if" scenarios in respect of the Information Capability graph function, you may have several versions of this questionnaire.

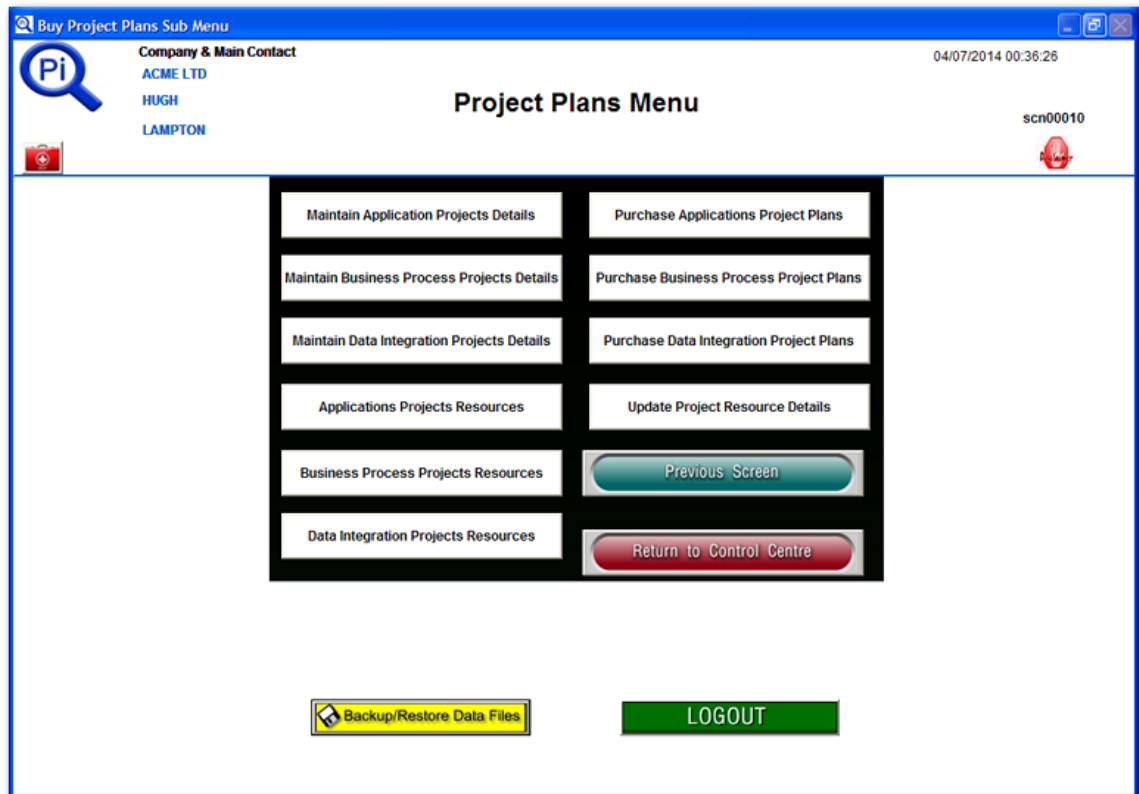

Using the NEW Goals & Objectives Questionnaire

?	OBJECTIVES	GOAL	KPI	RANK
001	Increase Market Share	<input type="checkbox"/>	<input type="checkbox"/>	1
002	Increase Sales	<input type="checkbox"/>	<input type="checkbox"/>	1
003	Reduce Costs	<input type="checkbox"/>	<input type="checkbox"/>	2
004	Improve Profits	<input type="checkbox"/>	<input type="checkbox"/>	3
005	Increase Customer Satisfaction	<input type="checkbox"/>	<input type="checkbox"/>	4
006	Improve Staff Productivity	<input type="checkbox"/>	<input type="checkbox"/>	5
007	Attract High Calibre Staff	<input type="checkbox"/>	<input type="checkbox"/>	6
008	Make Better Use Of Information	<input type="checkbox"/>	<input type="checkbox"/>	7
009	Acquire Other Companies	<input type="checkbox"/>	<input type="checkbox"/>	
010	Grow Organically	<input type="checkbox"/>	<input type="checkbox"/>	

At the top of the screen the questionnaire number will appear.

There are a total of 20 numbered questions to answer, split into 2 sections. Besides each number is the Objective name, to the right of this there are two tick boxes and a scrollable selection box. You must indicate whether each objective is a Business Goal and/or a KPI (Key Performance Indicator) and the Ranking (1-20) in terms of importance to the Business. To indicate a positive response for the tick boxes click the left mouse button whilst the cursor is over the relevant tick box(es). For the scrollable selection box simply scroll the box to select the appropriate ranking. If you wish to remove a tick from a box simply place the cursor over the relevant tick box and click the left mouse button.

If you wish to review and/or print your answers you should click the printer button at the bottom of the screen on the left-hand side, labelled "**Print these Answers**". The report will be sent to the screen for review, where you can print a hardcopy, by use of the Print preview bar displayed.

When you have finished entering your answers for this section, you may **SAVE** them by either clicking on the **SAVE** button at the bottom of the screen on the right-hand side, or by clicking the navigational button on the left hand side, labelled "Other Parts of Questionnaire to Answer". Clicking the navigational button will take you to the requested section of the questionnaire.

All the sections of the questionnaire work in exactly the same manner.

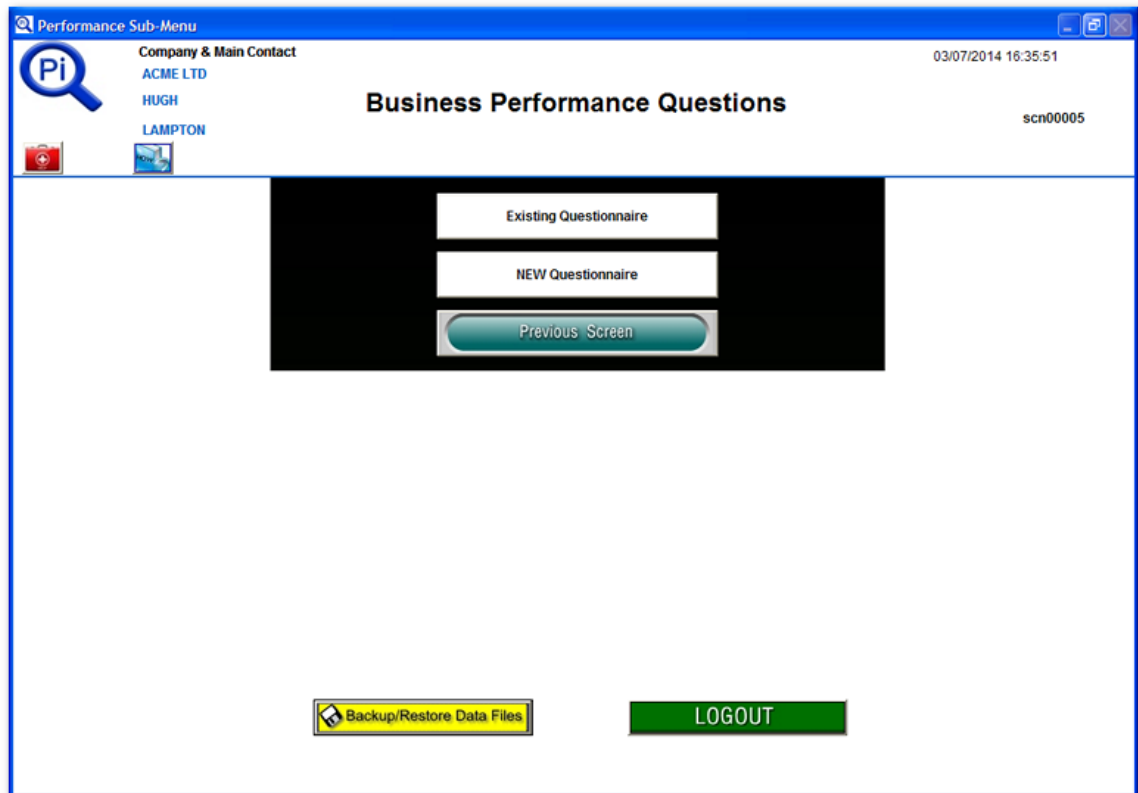

When you have completed work on the Goals & Objectives questionnaire remember to click the **SAVE** button to save your answers to the current section before exiting. When you have done this click the **EXIT** button and you will be returned to the Goals & Objectives menu.

Return to the Goals and Objectives Menu

2.108 How Do I - Performance Menu

The Performance Menu is used to either select an existing Performance questionnaire or to create a new one.

For reporting/analysis purposes the "master" Performance questionnaire is always used, but you may create additional questionnaires to run "what-if" scenarios in terms of the "Information Capability" graph function.

This menu presents you with 3 choices : *click the buttons below to see their functions.*

Existing Questionnaire New Questionnaire Previous Screen

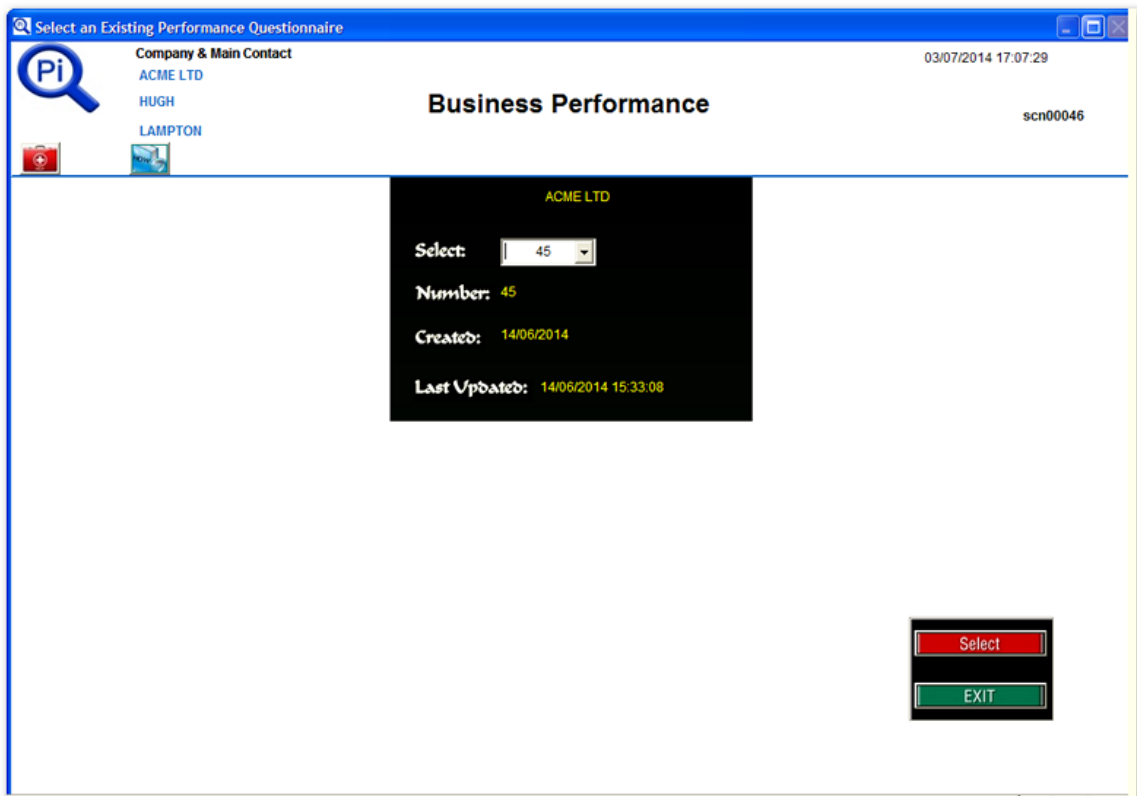

Backup / Restore data files This will allow you to backup or restore all the data files of the application

Pressing the **LOGOUT** button quits from the application

2.109 How Do I - Existing Performance Question

Here you can select one of the Performance questionnaires that you have created. Selection is made by using the drop down selection box. This is scrollable. There is one "master" Performance questionnaire, this represents the actual position of the company in terms of Performance and is always used for analysis and reports. However, for the purposes of running "what-if" scenarios in respect of the Information Capability graph function, you may have several versions of this questionnaire. If you wish to run a "what-if" Information Capability graph using a specific Performance questionnaire, you should select it using this screen, update it (if necessary) when you have reached the update screen (see below) and save it using the relevant SAVE button. This version will be used for all Information Capability Graphs, until you either run the Control Centre "ANALYSIS" function or if you run any of the reporting functions of the system, in which case The "master" Performance questionnaire will be re-selected automatically.

Using the Existing Performance Questionnaire

If you select the "master" version of this questionnaire it will be indicated by the word master appearing on this screen. On selection of a questionnaire the date the questionnaire was created and the last date/time it was updated will also appear.

Once you have selected the Performance questionnaire that you wish to work on, you should click the **Select** button

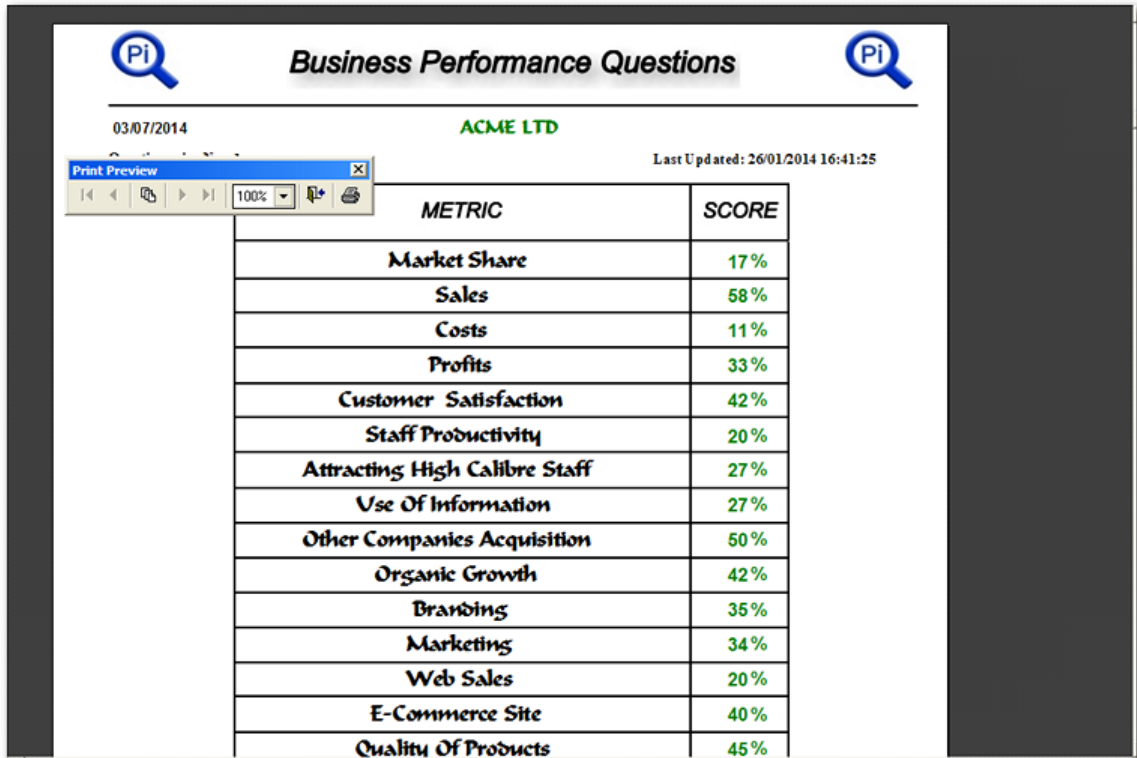

The following screen will appear:

?	METRIC	Actual %
001	Market Share	16
002	Sales	57
003	Costs	10
004	Profits	32
005	Customer Satisfaction	41
006	Staff Productivity	19
007	Attracting High Calibre Staff	26
008	Use Of Information	26
009	Other Companies Acquisition	49
010	Organic Growth	41

At the top of the screen the questionnaire number will appear. If you are editing the "master" Performance questionnaire this will also be indicated.

There are a total of 20 numbered questions to answer, split into 2 sections. Besides each number is the Metric name, to the right of this is a scrollable selection box. Using the drop down list you must select the current percentage (%) being achieved by your company for the related metric.

If you wish to review and/or print your answers you should click the printer button at the bottom of the screen on the left-hand side, labelled "**Print these Answers**". The report will be sent to the screen for review, where you can print a hardcopy, by use of the Print preview bar displayed.

03/07/2014 **ACME LTD** Last Updated: 26/01/2014 16:41:25

When you have finished entering your answers for this section, you may **SAVE** them by either clicking on the **SAVE** button at the bottom of the screen on the right-hand side, or by clicking the navigational button on the left hand side, labelled "Other Parts of Questionnaire to Answer". Clicking the navigational button will take you to the requested section of the questionnaire.

All the sections of the questionnaire work in exactly the same manner.

When you have completed work on the Performance questionnaire remember to click the **SAVE** button to save your answers to the current section before exiting. When you have done this click the **EXIT** button and you will be returned to the Performance menu.

Return to the Performance Menu

2.110 How Do I - NEW Performance Questionnaire

*NOTE There is one "master" Performance questionnaire; this represents the actual position of the company in terms of Performance and is always used for analysis and reports. However, for the purposes of running "what-if" scenarios in respect of the Information Capability graph function, you may have several versions of this questionnaire.

Using the NEW Performance Questionnaire

?	METRIC	Actual %
001	Market Share	2
002	Sales	4
003	Costs	
004	Profits	
005	Customer Satisfaction	
006	Staff Productivity	
007	Attracting High Calibre Staff	
008	Use Of Information	
009	Other Companies Acquisition	
010	Organic Growth	

At the top of the screen the questionnaire number will appear.

There are a total of 20 numbered questions to answer, split into 2 sections. Besides each number is the Metric name, to the right of this is a scrollable selection box. Using the drop down list you must select the current percentage (%) being achieved by your company for the related metric.

If you wish to review and/or print your answers you should click the printer button at the bottom of the screen on the left-hand side, labelled "**Print these Answers**". The report will be sent to the screen for review, where you can print a hardcopy, by use of the Print preview bar displayed.

The screenshot shows a web application titled "Business Performance Questions". It includes a header with the Pi logo and a sub-header "ACHIEVE LTD". Below the header, there is a table with two columns: "METRIC" and "SCORE". The table lists 20 metrics, each with a score of 0%.

METRIC	SCORE
Market Share	0%
Sales	0%
Costs	0%
Profits	0%
Customer Satisfaction	0%
Staff Productivity	0%
Attracting High Calibre Staff	0%
Use Of Information	0%
Other Companies Acquisition	0%
Organic Growth	0%
Branding	0%
Marketing	0%
Web Sales	0%
E-Commerce Site	0%
Quality Of Products	0%
Quality Of Services	0%
Attracting New Customers	0%
Winning Back Old Customers	0%
Customer Services	0%
Supply Chain Operations	0%

Below the table, there is a "Print Preview" button and a navigation bar with buttons for back, forward, and zoom. At the bottom, it says "Page 1" and "Continuous Information Advantage".

When you have finished entering your answers for this section, you may **SAVE** them by either clicking on the **SAVE** button at the bottom of the screen on the right-hand side, or by clicking the navigational button on the left hand side, labelled "Other Parts of Questionnaire to Answer". Clicking the navigational button will take you to the requested section of the questionnaire.

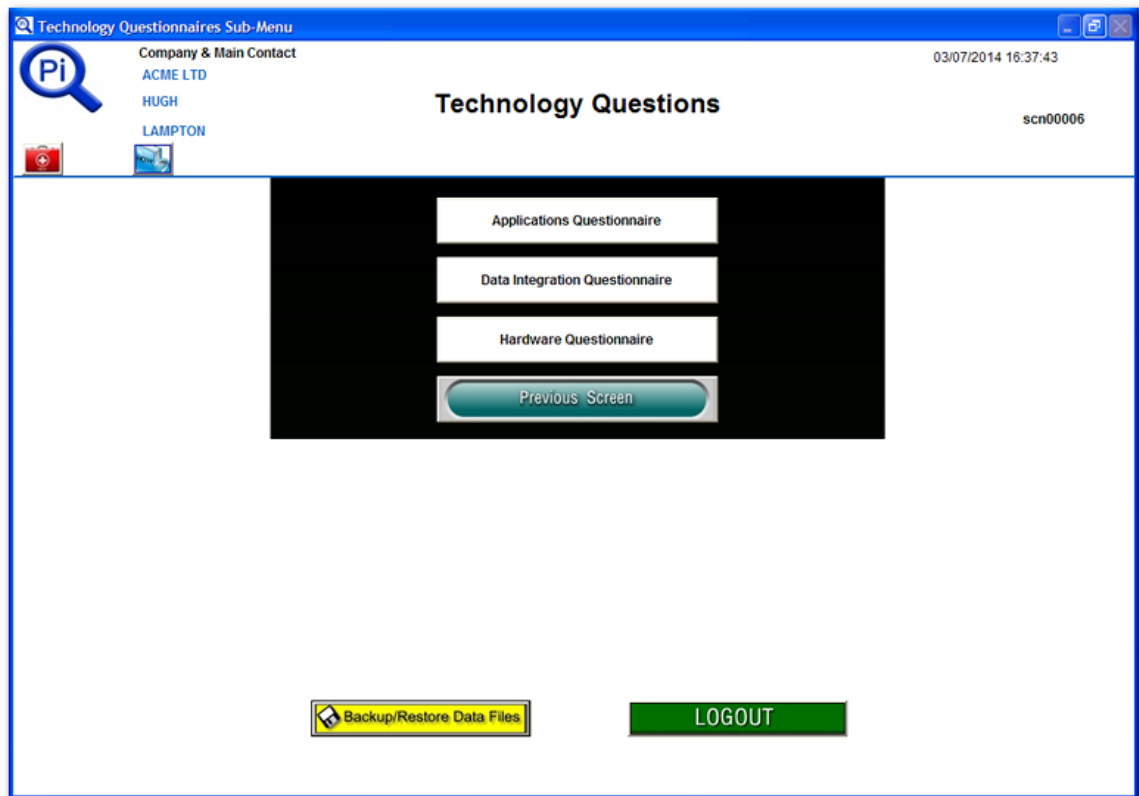

All the sections of the questionnaire work in exactly the same manner.

When you have completed work on the Performance questionnaire remember to click the **SAVE** button to save your answers to the current section before exiting. When you have done this click the **EXIT** button and you will be returned to the Performance menu.

Return to the Performance Menu

2.111 How Do I - Technology Menu

The Technology Menu gives you access to the Applications, Data Integration and Hardware questionnaires of the system.

This menu presents you with 3 choices : *click the buttons below to see their functions.*

EXIT

At the top of the screen on the left hand side the date that you last updated these details will be displayed.

There are 17 questions to answer, split across two input sections. On the left hand side of the screen is the application area. Besides this you must select the software/application (product) that you have installed. You do this by selecting the appropriate product from the drop-down list provided. If you do not have any software installed for a particular application area you should select "<NONE>" from the list. If you have a product installed that does not appear on the list you should use the Technology Reference File Maintenance function to add your product to the list and then return to this screen to update your application questionnaire.

When you have selected the software/application for an application area you should then enter the number of staff who are using the product in the related input area under the USERS column heading.

If you wish to review and/or print your answers you should click the printer button at the bottom of the screen on the left-hand side, labelled "**Print these Answers**". The report will be sent to the screen for review, where you can print a hardcopy, by use of the Print preview bar displayed.

EXIT

At the top of the screen on the left hand side the date that you last updated these details will be displayed.

You must indicate which Hardware, operating systems, memory, storage space and number of units you have installed for each of the four categories identified viz; Mainframe, Mini computers, Servers and PC workstations.

Selection of model and operating system is made by use of the drop-down selection lists provided.

If you have a model or operating system installed that does not appear on the lists you should use the Technology Reference File Maintenance function to add these to the appropriate list and then return to this screen to update your hardware questionnaire.

When you have selected the hardware and operating system you should enter the memory, storage space and number of units for the related hardware.

If you wish to review and/or print your answers you should click the printer button at the bottom of the screen on the left-hand side, labelled "**Print these Answers**". The report will be sent to the screen for review, where you can print a hardcopy, by use of the Print preview bar displayed.

TYPE	MODEL	OPERATING SYSTEM	MEMORY Gb	STORAGE Gb	UNITS

When you have completed work on the Personnel questionnaire remember to click the **SAVE** button to save your answers before exiting. When you have done this click the **EXIT** button and you will be returned to the Control Centre Menu

2.116 How Do I - IC Results / Graph

The Information Capability (IC) Results /Graph is an option that allows you to get a quick graphic snapshot of your company's efficiency in terms of the collection and use of Information to support your business.

It is based on the answers that you have provided to the questionnaires of the application.

The graph results are based on the versions of the questionnaire that are currently selected. If you wish to use or re-select the MASTER copies of each questionnaire you should run the Analysis procedure. see Run Analysis

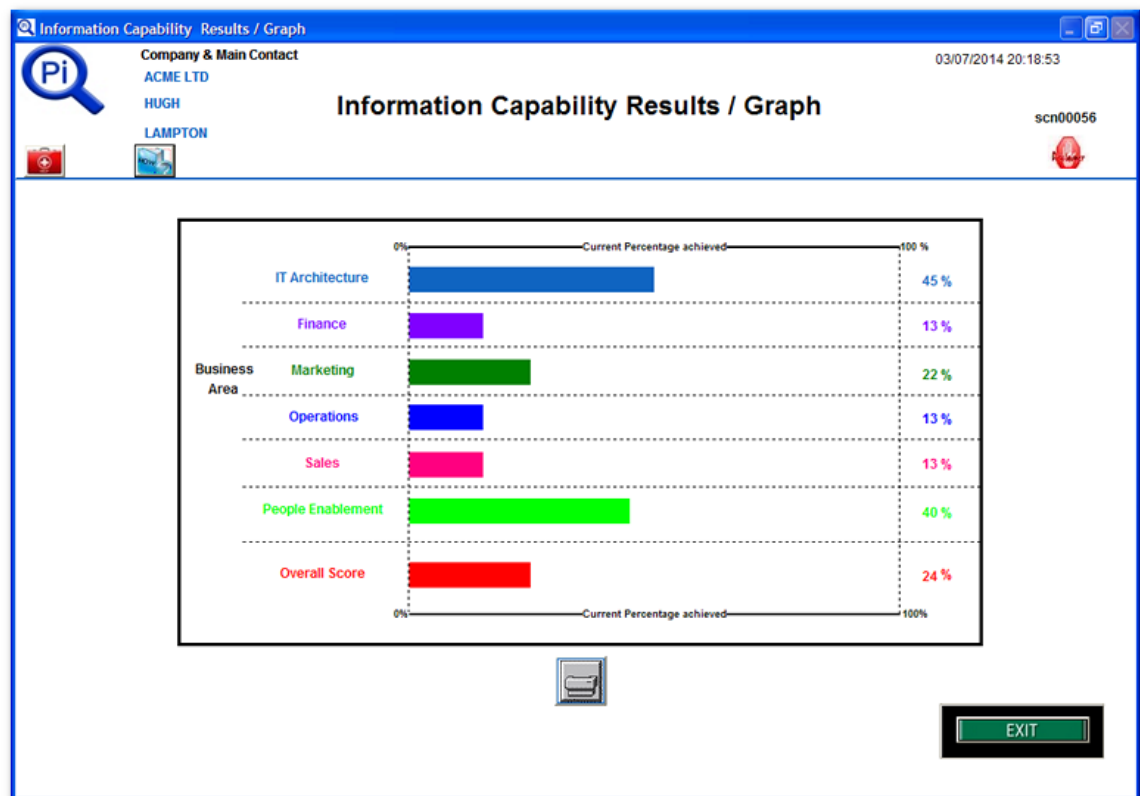

If you run the ANALYSIS function prior to running the graph, the results that you see will be based on the MASTER versions (Actual company position) of each questionnaire.

If you want to run "what-if" scenarios using other versions of the questionnaires (not the MASTER versions), you should select the required questionnaires using the appropriate Menu options:

Existing Business Processes Existing Goals & Objectives Existing Performance

Once you have selected a questionnaire just **SAVE** it and exit. This will make it current until you either run the ANALYSIS function or run reports, when the MASTER versions will be automatically re-selected.

On selection of this option the following screen will appear:

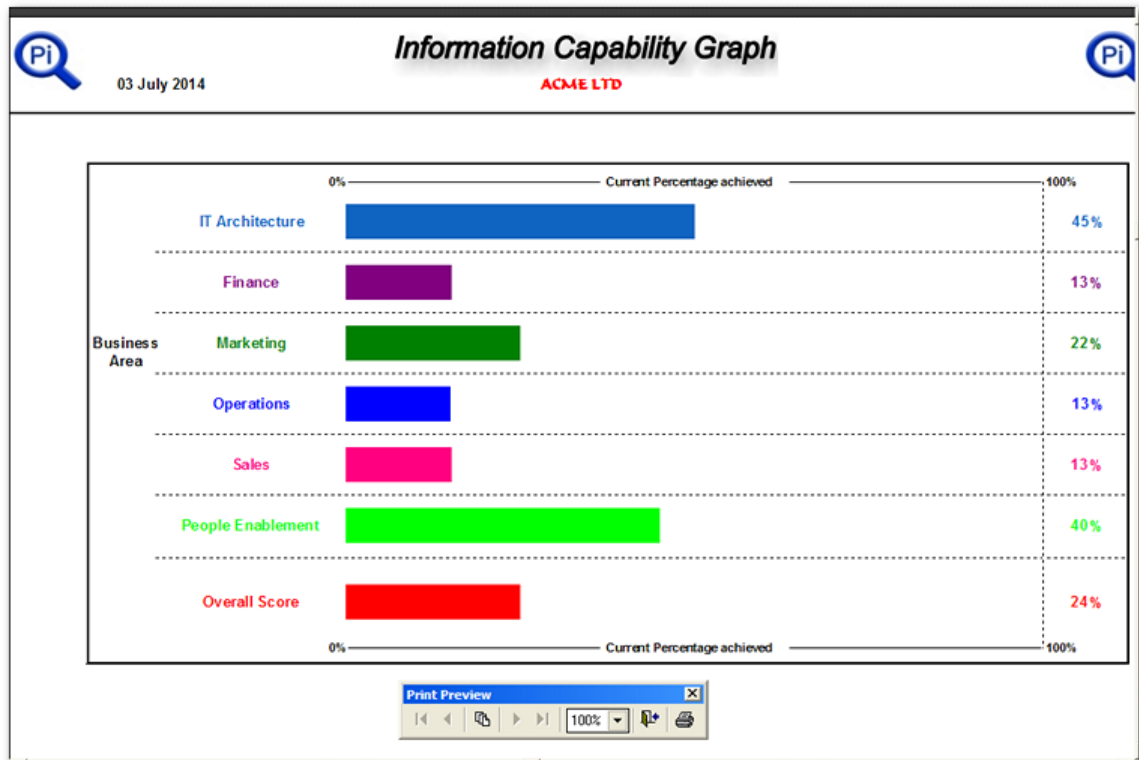

The coloured bars on the graph that you will see indicate your company's Information Capability scoring in the following areas:

IT Architecture
Finance
Marketing
Operations
Sales
People Enablement
Overall Score

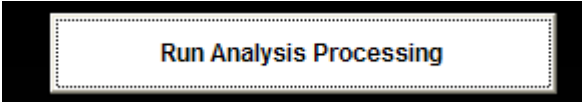

At the bottom of the screen on the right-hand side is EXIT button which returns you to the Control Centre Menu

If you click the button PRINT ICON button, the report will be sent to the screen for review, where you can print a hardcopy, by use of the Print preview bar displayed:

The graph/report is also saved to disk for later review. see View Information Capability Graphs

2.117 How Do I - Run Analysis

A rectangular button with a black border and a white background. The text "Run Analysis Processing" is centered in a blue, sans-serif font. The button is set against a black rectangular background.

Run Analysis Processing

Selection of this option from the Control Centre will update all scoring throughout the system by analysing the latest answers and inputs. **Note:** This will always use the Master records from the Performance, Objectives and Business Processes Questionnaires, as these represent the actual/current position at your company and it is this position on which Pi makes its recommendations.

Control Centre

2.118 How Do I - Strategy Report

* Note before selecting this option please ensure that you have completed all the questionnaires, have made any changes to Project Roles and Rates, have run Analysis and have identified which projects are internally resourced and externally resourced.

Also see Sequence to use when running Reports

On selection of this option a dialogue box will be displayed:

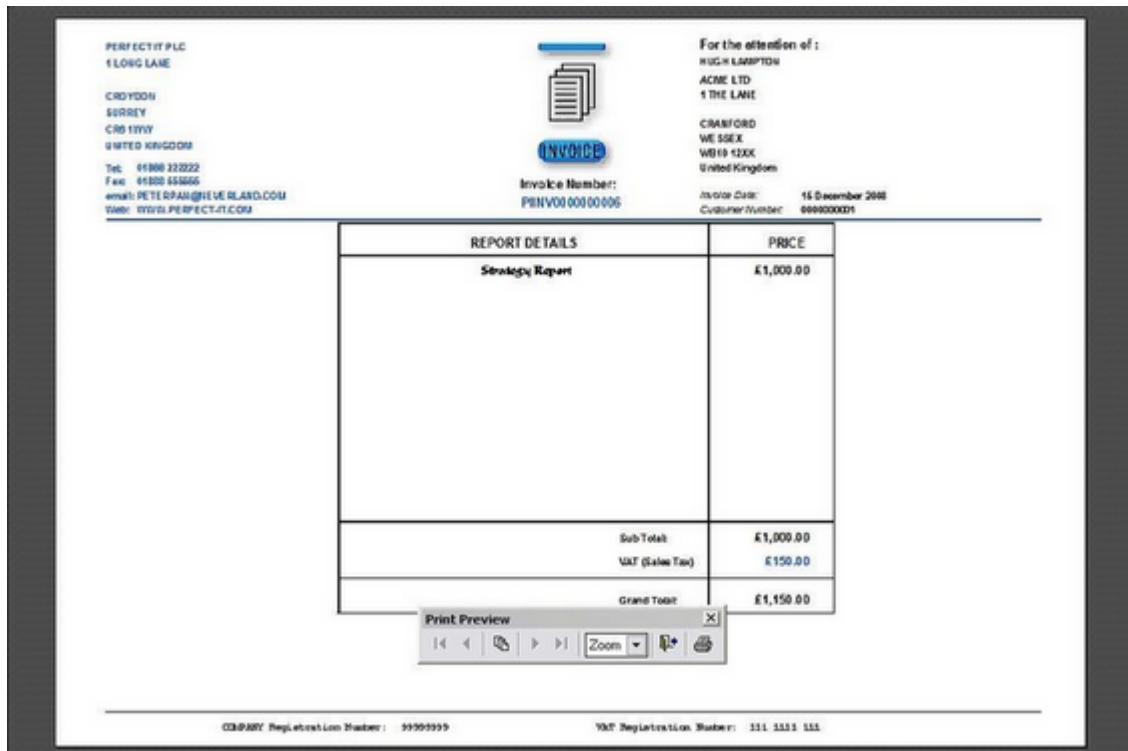

If you click the YES the Information Strategy report will be displayed on screen, from where it can be printed via the Print Preview Bar supplied. The full report is also saved to disk.

If you click NO the report will be saved to disk and a progress bar will be displayed on screen.

If you are using the Multi-Company version of the application on completion of the report generation an Invoice will be displayed on screen. This is also saved to disk.

Next a dialogue box will appear instructing you of the disk location of the saved report.

Click the OK button and the Control Centre Menu will be re-displayed.

2.119 How Do I - Route Map Report

* Note before selecting this option please ensure that you have completed all the questionnaires, have made any changes to Project Roles and Rates, have run Analysis and have identified which projects are internally resourced and externally resourced.

Also see Sequence to use when running Reports

On selection of this option a dialogue box will be displayed:

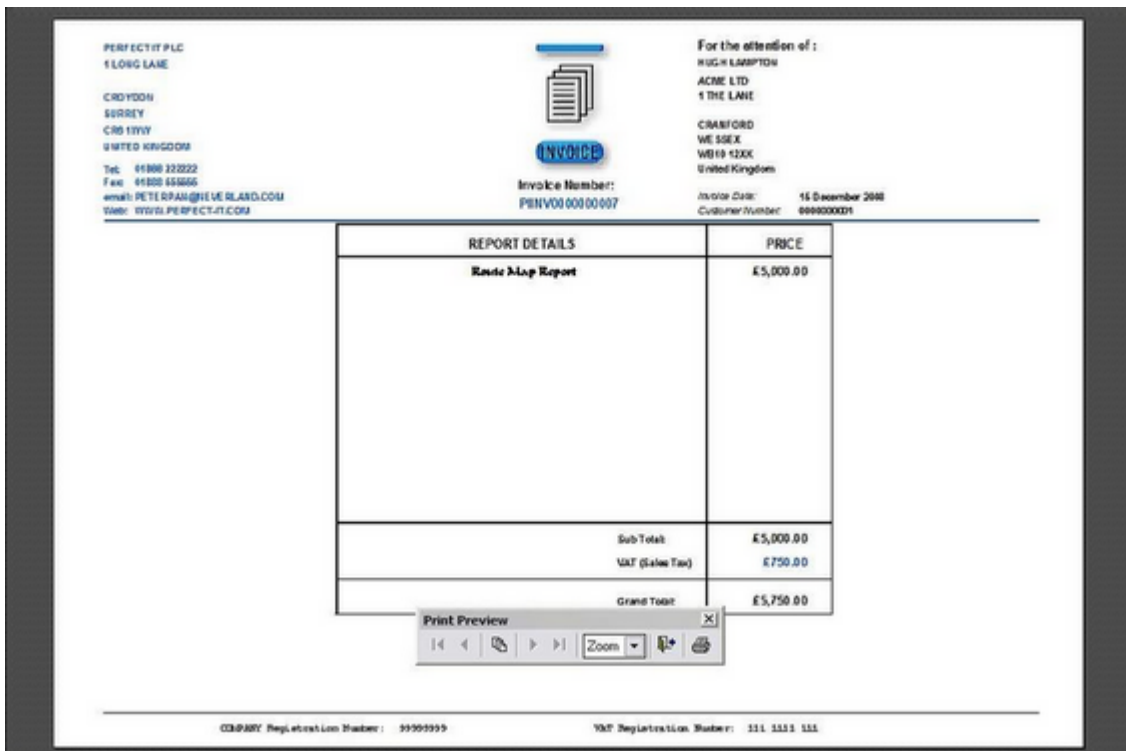

If you click the YES the Route Map report will be displayed on screen, from where it can be printed via the Print Preview Bar supplied. The full report is also saved to disk.

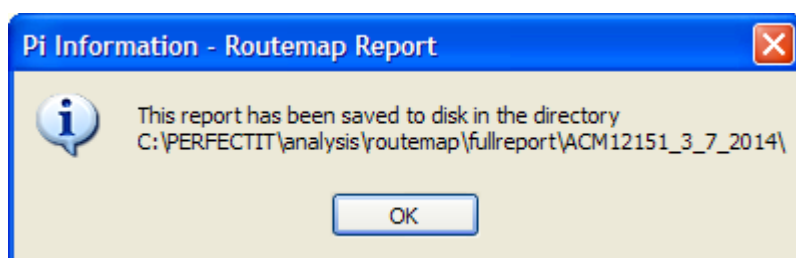

If you click NO the report will be saved to disk and a progress bar will be displayed on screen.

If you are using the Multi-Company version of the application on completion of the report generation an Invoice will be displayed on screen. This is also saved to disk.

Next a dialogue box will appear instructing you of the disk location of the saved report.

Click the **OK** button and the Control Centre Menu will be re-displayed.

2.120 How Do I - Projects Report

* Note before selecting this option please ensure that you have completed all the questionnaires, have made any changes to Project Roles and Rates, have run Analysis and have identified which projects are internally resourced and externally resourced.

Also see Sequence to use when running Reports
